OTHER INFORMATION

1. **LISTING AND ADMISSION TO TRADING** The Lead Manager will apply for the Certificates to be admitted to trading on the EuroTLX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A. (the "**EuroTLX Market**"), which is not a regulated market for the purposes of Directive 2014/65/EU on Markets in Financial Instruments (as amended, "**MiFID II**"). MPSCS expects that trading of the Certificates on the EuroTLX Market will commence, at the latest, within five TARGET Settlement Days from the Issue Date, but no assurances can be given that admission to trading will be granted (or, if granted, will be granted by the Issue Date). MPSCS will act as liquidity provider (specialist) in accordance with the conditions of the Regulation of the EuroTLX Market, available for viewing on the website *www.borsaitaliana.it*. The execution of sale and purchase orders on the EuroTLX Market will occur pursuant to the operational rules of the EuroTLX Market, published on the website *www.borsaitaliana.it*.

Finally, MPSCS expressly reserves the right to trade the Certificates on its own account outside of any trading venues and to act as market maker and/or liquidity provider in accordance with the rules and regulations of MiFID II, as implemented in Italy and in accordance with the guidelines issued by the supervision authorities. In such events, MPSCS shall provide bid/ask quotes for the amount of the Certificates effectively placed, to be determined based on the market conditions from time to time prevailing. In particular, in respect of the creditworthiness of the Guarantor, the 3-Month EURIBOR will be increased by a spread determined as the asset spread of certain Guarantor's debt securities. The price so determined, in the case of "ask quotes" (purchase by the investor), shall be increased by a margin of up to a maximum of 0.35 per cent.; in case of "bid quotes" (sale by the investor), it shall be reduced by a margin of up to a maximum of 1.00 per cent.

There is no duty to maintain the listing (if any) of the Certificates on the relevant stock exchange(s) over their entire lifetime. The Certificates may be suspended from trading and/or de-listed at any time in accordance with applicable rules and regulations of the relevant stock exchange(s).

2. **LIQUIDITY ENHANCEMENT** Not Applicable.
AGREEMENTS

3. **RATINGS** Not Applicable.

4. **INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE OFFER**

In connection with the distribution of the Certificates, Goldman Sachs International shall pay either (i) (a) the selling fee of between a minimum of 2.40 per cent. (2.40%) and a maximum of 2.60 per cent. (2.60%) of the face amount of the Certificates (the "**Selling Fee**") payable through the Lead Manager to the Distributor, and (b) the management fee of between a minimum of 0.60 per cent. (0.60%) and a maximum of 0.65 per cent. (0.65%) of the face amount of the Certificates (the "**Management Fee**") payable to the Lead Manager, or (ii) (limited to the amount subscribed by the Lead Manager, if any) the underwriting fee of between a minimum of 3.00 per cent. (3.00%) and a maximum of 3.25 per cent. (3.25%) (the "**Underwriting Fee**") payable to the Lead Manager. The Selling Fee and the Management Fee or the Underwriting Fee, if any, will be published not later than five TARGET Settlement Days after close of the Offer Period on the websites of the Issuer (www.goldman-sachs.it), the Lead Manager (www.mpscapitalservices.it) and the Distributor (www.gruppomps.it). Goldman Sachs International may resell any Certificates it purchases as principal to other brokers or dealers at a discount, which may include all or part of the discount the agent received from us. If all the Certificates are not sold at the initial offering price, the agent may change the offering price and the other selling terms. This may give risk to a potential conflict of interest as highlighted in Risk Factor 7.10 in the Base Prospectus.

The Lead Manager (a) acts as hedging counterparty of Goldman Sachs International, which is the Issuer and Calculation Agent, and is part of the same group of the Guarantor, in relation to the issuance of the Certificates, (b) acts as liquidity provider, providing bid/ask quotes for the Certificates for the benefit of the holders, and (c) at the end of the Offer Period, may decide to partly underwrite the issue, provided however that any such underwriting would be neutral with respect to the position of the potential investors. The Lead Manager and the Distributor (a) and any of their subsidiaries and/or their affiliates may, in the ordinary course of business, have a business relationship with the issuers of the financial instruments underlying the Certificates, hold non public information in relation to such issuers, issue instruments relating to the same underlyings, enter into one or more hedging transaction(s) with respect to the underlying financial instrument(s), and such circumstances may affect the market price, liquidity or value of the Certificates, and (b) are, with respect to the offer of the Certificates, in a position of conflict of interest with the investors as they are part of the same banking group (the Montepaschi Banking Group) and they have an economic interest in the distribution of the Certificates. An application shall be made for the Certificates to be admitted to trading on the EuroTLX Market, on which the Lead Manager acts as specialist. This may give risk to a potential conflict of interest as highlighted in Risk Factor 7.1 in the Base Prospectus.

9. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer and Guarantor. The Securities are the Issuer's unsecured obligations and the Guarantee is the Guarantor's unsecured obligation. Investors are dependent on the Issuer's and Guarantor's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's and Guarantor's credit risk and to changes in the market's view of the Issuer's and Guarantor's creditworthiness. Neither the Securities nor the Guarantee are bank deposits, and they are not insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's and the Guarantor's ability to fulfil their obligations under the Securities, including market and credit risks, liquidity risks, business activities and industry risks, operational risks and legal, regulatory and reputational risks.

¹ "Fees and commissions" are included within "non-interest income" and therefore are not included as a single line item.

² Sum of items "Fixed assets", "Current assets" and "Pension surplus".

³ "Subordinated loans" are included within "total unsecured borrowings" and therefore are not included as a single line item.

⁴ Amounts due to broker/dealers and customers.

- GSI is a wholly-owned subsidiary of the Goldman Sachs group and a key banking subsidiary of the Goldman Sachs group. As a result, it is subject to a variety of risks that are substantial and inherent in its businesses including risks relating to economic and market conditions, regulation, Brexit, market volatility, liquidity, credit markets, concentration of risk, credit quality, composition of client base, derivative transactions, operational infrastructure, cyber security, risk management, business initiatives, operating in multiple jurisdictions, conflicts of interest, competition, changes in underliers, personnel, negative publicity, legal liability, catastrophic events and climate change.
- GSI is subject to the Bank Recovery and Resolution Directive, which is intended to enable a range of actions to be taken by a resolution authority in relation to credit institutions and investment firms considered by the resolution authority to be at risk of failing and where such action is necessary in the public interest. The resolution powers available to the resolution authority include powers to (i) write down the amount owing, including to zero, or convert the Securities into other securities, including ordinary shares of the relevant institution (or a subsidiary) – the so-called "bail-in" tool; (ii) transfer all or part of the business of the relevant institution to a "bridge bank"; (iii) transfer impaired or problem assets to an asset management vehicle; and (iv) sell the relevant institution to a commercial purchaser. In addition, the resolution authority is empowered to modify contractual arrangements, suspend enforcement or termination rights that might otherwise be triggered. The resolution regime is designed to be triggered prior to insolvency, and holders of Securities may not be able to anticipate the exercise of any resolution power by the resolution authority. Further, holders of Securities would have very limited rights to challenge the exercise of powers by the resolution authority, even where such powers have resulted in the write down of the Securities or conversion of the Securities to equity.

Status of the Securities: The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding. The taking of any action by a resolution authority under the Bank Recovery and Resolution Directive, in relation to the Issuer could materially affect the value of, or any repayments linked to, the Securities, and/or risk a conversion into equity of the Securities.				
Description of restrictions on free transferability of the Securities: The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the " Securities Act ") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations. Qualifications in audit report on historical financial information: Not applicable; there are no qualifications in the audit report of GSG on its historical financial information

Risk factors associated with the Guarantor:

- GSG is the parent holding company of the group of companies comprising Goldman Sachs. Goldman Sachs is a leading global investment banking, securities and investment management firm that faces a variety of significant risks which may affect GSG's ability to fulfil its obligations under the Securities, including market and credit risks, liquidity risks, business activities and industry risks, operational risks and legal, regulatory and reputational risks.
- Investors are exposed to the credit risk of GSG and its subsidiaries since the assets of GSG consist principally of interests in its subsidiaries. GSG's right as a shareholder to benefit in any distribution of assets of any of its subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. As a result, investors' ability to benefit from any distribution of assets of any of GSG's subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. Any liquidation or otherwise of a subsidiary of GSG may result in GSG being liable for the subsidiary's obligations which could reduce its assets that are available to satisfy its obligations under the guarantee.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted. Depending on the performance of the Underlying Assets, you may lose some or all of your investment.

Risks relating to certain features of the Securities:

- The terms and conditions of your Securities provide that the Securities are subject to a cap. Therefore, your ability to participate in any change in the value of the Underlying Assets over the term of the Securities will be limited, no matter how much the price of an Underlying Asset may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Assets directly.
- The terms and conditions of your Securities provide that the return on the Securities depends on the "worse-of" performance of the basket of Underlying Assets. Therefore, you will be exposed to the performance of each Underlying Asset and, in particular, to the Underlying Asset which has the worse performance. This means that, irrespective of how the other Underlying Asset performs, if any one or more Underlying Assets fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, you may receive no interest payments and/or could lose some or all of your initial investment.

Risks relating to the Underlying Assets:

- *The value of and return on your Securities depends on the performance of the Underlying Assets.* The return on your Securities depends on the performance of one or more Underlying Assets. The price of an Underlying Asset may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the price of an Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of an Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of the Underlying Assets as indicative of the range of, or trends in, fluctuations in the Underlying Assets that may occur in the future. Underlying Assets may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as business risks faced by the issuers thereof. Any one or a combination of such factors could adversely affect the performance of the Underlying Assets which, in turn, would have a negative effect on the value of and return on your Securities.

Who is the offeror and/or the person asking for admission to trading?

See the item entitled "Authorised Offeror(s)" above. The Lead Manager will apply for the Securities to be admitted to trading on the EuroTLX Market.

Why is this Prospectus being produced?

Reasons for the offer or for the admission to trading on a regulated market, estimated net amount of proceeds and use of proceeds: The net amount of proceeds of the offer will be used by the Issuer to provide additional funds for its operations and for other general corporate purposes (i.e., for making profit and/or hedging certain risks).

Underwriting agreement on a firm commitment basis: The offer of the Securities is not subject to an underwriting agreement on a firm commitment basis.

Material conflicts pertaining to the issue/offer:

Fees shall be payable to the Authorised Offeror(s).

The Issuer is subject to a number of conflicts of interest between its own interests and those of holders of Securities, including: (a) in making certain calculations and determinations, there may be a difference of interest between the investors and the Issuer, (b) in the ordinary course of its business the Issuer (or an affiliate) may effect transactions for its own account and may enter into hedging transactions with respect to the Securities or the related derivatives, which may affect the market price, liquidity or value of the Securities, and (c) the Issuer (or an affiliate) may have confidential information in relation to the Underlying Assets or any derivative instruments referencing them, but which the Issuer is under no obligation (and may be subject to legal prohibition) to disclose.

In connection with the sale of the Securities, Goldman Sachs International shall pay either (i) (a) the selling fee of between a minimum of 2.40 per cent. (2.40%) and a maximum of 2.60 per cent. (2.60%) of the face amount of the Securities (the "**Selling Fee**") payable through the Lead Manager to the Distributor, and (b) the management fee of between a minimum of 0.60 per cent. (0.60%) and a maximum of 0.65 per cent. (0.65%) of the face amount of the Securities (the "**Management Fee**") payable to the Lead Manager, or (ii) (limited to the amount subscribed by the Lead Manager, if any) the underwriting fee of between a minimum of 3.00 per cent. (3.00%) and a maximum of 3.25 per cent. (3.25%) (the "**Underwriting Fee**") payable to the Lead Manager. The Selling Fee and the Management Fee or the Underwriting Fee, if any, will be published not later than five TARGET Settlement Days after close of the Offer Period on the websites of the Issuer (www.goldman-sachs.it), the Lead Manager (www.mpscapiitalservices.it) and the Distributor (www.gruppomps.it).

Goldman Sachs International may resell any Securities it purchases as principal to other brokers or dealers at a discount, which may include all or part of the discount the agent received from us. If all the Securities are not sold at the initial offering price, the agent may change the offering price and the other selling terms. This may give risk to a potential conflict

of interest.

The Lead Manager (a) acts as hedging counterparty of Goldman Sachs International, which is the Issuer and Calculation Agent, and is part of the same group of the Guarantor, in relation to the issuance of the Securities, (b) acts as liquidity provider, providing bid/ask quotes for the Securities for the benefit of the holders, and (c) at the end of the Offer Period, may decide to partly underwrite the issue, provided however that any such underwriting would be neutral with respect to the position of the potential investors. The Lead Manager and the Distributor (a) and any of their subsidiaries and/or their affiliates may, in the ordinary course of business, have a business relationship with the issuers of the financial instruments underlying the Securities, hold non public information in relation to such issuers, issue instruments relating to the same underlyings, enter into one or more hedging transaction(s) with respect to the underlying financial instrument(s), and such circumstances may affect the market price, liquidity or value of the Securities, and (b) are, with respect to the offer of the Securities, in a position of conflict of interest with the investors as they are part of the same banking group (the Montepaschi Banking Group) and they have an economic interest in the distribution of the Securities.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- Il pagamento di qualsiasi importo dovuto sugli Strumenti Finanziari è soggetto al rischio di credito dell'Emittente e del Garante. Gli Strumenti Finanziari sono obbligazioni non garantite dell'Emittente e la Garanzia è un'obbligazione non garantita del Garante. Gli investitori dipendono dalla capacità dell'Emittente e del Garante di versare tutti gli importi dovuti sugli Strumenti Finanziari, e pertanto gli investitori sono soggetti al rischio di credito dell'Emittente e del Garante e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente e del Garante. Né gli Strumenti Finanziari né la Garanzia sono depositi bancari, e non sono assicurati o garantiti da alcuno schema di protezione di compensazione o deposito. Il valore e il rendimento sugli Strumenti Finanziari saranno soggetti al rischio di credito dell'Emittente e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente.
- GSG e le sue controllate consolidate ("**Goldman Sachs**") costituiscono un gruppo leader mondiale nell'investment banking, nei titoli e nella gestione degli investimenti e fanno fronte ad una varietà di rischi significativi che potrebbero pregiudicare la capacità dell'Emittente e del Garante di adempiere ai propri obblighi relativi agli Strumenti Finanziari, inclusi i rischi di mercato e di credito, rischi di liquidità, rischi legati all'attività e all'industria, rischi operative e rischi legali, regolamentari e reputazionali.
- GSI è una società controllata interamente detenuta dal gruppo Goldman Sachs e una società bancaria controllata principale del gruppo Goldman Sachs. Di conseguenza, è soggetta ad una varietà di rischi che sono sostanziali e inerenti alle proprie attività, compresi i rischi legati alle condizioni economiche e di mercato, di regolamentazione, alla *Brexit*, alla volatilità del mercato, liquidità, mercati di credito, concentrazione del rischio, qualità del credito, composizione della base di clientela, operazioni di strumenti derivati, infrastrutture operative, sicurezza informatica, la gestione del rischio, iniziative imprenditoriali, operatività in multiple giurisdizioni, conflitti di interessi, concorrenza, cambiamenti nelle attività sottostanti, personale, pubblicità negative, responsabilità legale, eventi catastrofici e cambiamento climatico.
- GSI è soggetta alla *Bank Recovery and Resolution Directive* (Direttiva sul Risanamento e la Risoluzione delle Crisi Bancarie), che ha lo scopo di consentire una serie di azioni da parte di un'autorità di risoluzione delle crisi in relazione agli enti creditizi e alle imprese di investimento che l'autorità di risoluzione delle crisi considera a rischio di fallimento e quando tale azione è necessaria nell'interesse pubblico. I poteri di risoluzione delle crisi di cui dispone l'autorità di risoluzione delle crisi comprendono il potere di (i) svalutare l'importo dovuto, anche a zero, o convertire gli Strumenti Finanziari in altri titoli, comprese le azioni ordinarie dell'ente interessato (o di una controllata) - il cosiddetto strumento del "bail-in"; (ii) trasferire tutta o parte dell'attività dell'ente interessato a una "banca ponte"; (iii) trasferire attività deteriorate o problematiche a un veicolo di gestione patrimoniale; e (iv) vendere l'ente interessato a un acquirente commerciale. Inoltre, l'autorità di risoluzione delle crisi ha la facoltà di modificare gli accordi contrattuali, sospendere i diritti di esecuzione o di recesso che potrebbero altrimenti essere attivati. Il regime di risoluzione delle crisi è concepito per essere attivato prima dell'insolvenza e i detentori degli Strumenti Finanziari possono non essere in grado di anticipare l'esercizio del potere di risoluzione delle crisi da parte dell'autorità di risoluzione delle crisi. Inoltre, i detentori degli Strumenti Finanziari avrebbero diritti molto limitati di contestare l'esercizio dei poteri da parte dell'autorità di risoluzione delle crisi, anche nel caso in cui tali poteri abbiano portato alla svalutazione degli Strumenti Finanziari o alla conversione degli Strumenti Finanziari in capitale.

$$(CA \times CV); \text{ o}$$

- (i) a scelta dell'Emittente (a) qualora l'Emittente determini che un cambiamento della legge applicabile abbia l'effetto di rendere la prestazione dell'Emittente o delle sue società controllate, collegate o sottoposte a comune controllo ai sensi degli Strumenti Finanziari o gli accordi di copertura relativi a Strumenti Finanziari, illegali o eccessivamente onerosi (in tutto o in parte) (o vi sia una sostanziale probabilità che lo diventino nell'immediato futuro), o (b) se del caso, qualora l'Agente di Calcolo determini che taluni eventi di turbativa o eventi di rettifica addizionali come previsti nei termini e nelle condizioni degli Strumenti Finanziari si siano verificati in relazione alle attività sottostanti; o (ii) in virtù di comunicazione da parte di un Detentore che dichiara gli Strumenti Finanziari immediatamente esigibili a causa del verificarsi di un evento di default che sia ancora in corso.

Legge applicabile: Gli Strumenti Finanziari sono regolati dal diritto inglese.

Stato degli Strumenti Finanziari: Gli Strumenti Finanziari sono obbligazioni non subordinate e non garantite dell'Emittente e si classificheranno allo stesso modo tra di loro e con tutte le altre obbligazioni non subordinate e non garantite dell'Emittente di volta in volta in essere.

L'adozione di qualsiasi azione da parte di un'autorità di risoluzione delle crisi ai sensi della Direttiva sul Risanamento e la Risoluzione delle Crisi Bancarie, in relazione all'Emittente, potrebbe materialmente influenzare il valore dei, o qualsiasi rimborso collegato agli, Strumenti Finanziari, e/o rischiare una conversione in capitale degli Strumenti Finanziari.

Descrizione delle restrizioni alla libera trasferibilità degli Strumenti Finanziari: Gli Strumenti Finanziari non sono stati e non saranno registrati ai sensi dello U.S. Securities Act del 1933 (il "Securities Act") e non possono essere offerti o venduti all'interno degli Stati Uniti o a, o per conto o a beneficio di, persone statunitensi, tranne che in alcune operazioni esenti dagli obblighi di registrazione del Securities Act e dalle leggi statali applicabili in materia di strumenti finanziari. Nessuna offerta, vendita o consegna degli Strumenti Finanziari, o distribuzione di qualsiasi materiale d'offerta relativo agli Strumenti Finanziari, può essere effettuata in o da qualsiasi giurisdizione, salvo in circostanze che risultino conformi alle leggi e ai regolamenti applicabili. Fermo restando quanto sopra, gli Strumenti Finanziari saranno liberamente trasferibili.

MPSCS prevede che la negoziazione degli Strumenti Finanziari sul Mercato EuroTLX venga avviata, al più tardi, entro cinque (5) Giorni di Regolamento TARGET dalla Data di Emissione, ma non si può fornire alcuna garanzia circa la concessione dell'ammissione alle negoziazioni (ovvero che, se concessa, venga concessa entro la Data di Emissione).

Natura e portata della garanzia: GSG garantisce incondizionatamente e irrevocabilmente gli obblighi di pagamento dell'Emittente. La garanzia è pari a tutti gli altri debiti non garantiti e non subordinati di GSG.

Informazioni finanziarie principali del Garante: Le seguenti informazioni finanziarie principali sono state estratte dai bilanci consolidati sottoposti a revisione contabile di GSG per gli esercizi chiusi al 31 dicembre 2020 e al 31 dicembre 2019 e per il trimestre conclusosi al 30 giugno 2021 e 30 giugno 2020. Riserve nella relazione di revisione sulle informazioni finanziarie storiche: Non applicabile; nella relazione di revisione della GSG sulle informazioni finanziarie relative agli esercizi passati non sono presenti riserve.

Fattori di rischio associati al Garante:

- GSG è la *holding* del gruppo di società che comprende Goldman Sachs. Goldman Sachs è una società *leader* a livello mondiale nel settore dell'*investment banking*, dei titoli e della gestione degli investimenti, che si trova ad affrontare una serie di rischi significativi che possono influire sulla capacità di GSG di adempiere ai propri obblighi in materia di titoli, compresi i rischi di mercato e di credito, i rischi di liquidità, le attività commerciali e i rischi del settore, i rischi operativi e i rischi legali, normativi e di reputazione.
- Gli investitori sono esposti al rischio di credito della GSG e delle sue controllate in quanto il patrimonio della GSG è costituito principalmente da partecipazioni nelle sue controllate. Il diritto di GSG, in qualità di azionista, di beneficiare di qualsiasi distribuzione del patrimonio di una delle sue controllate in caso di liquidazione della controllata o in altro modo è subordinato ai creditori delle controllate di GSG. Di conseguenza, la capacità degli investitori di trarre vantaggio da qualsiasi distribuzione di attività di una qualsiasi delle controllate di GSG al momento della liquidazione della controllata o in altro modo è subordinata ai creditori delle controllate di GSG. La liquidazione o meno di una controllata della GSG può comportare la responsabilità della GSG per gli obblighi della controllata, il che potrebbe ridurre i suoi attivi disponibili per soddisfare gli obblighi derivanti dalla garanzia.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Fattori di rischio associati agli Strumenti Finanziari: Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

- Il valore ed il prezzo stimato dei suoi Strumenti Finanziari (se de caso) in qualsiasi momento dipenderanno da molti fattori e non potranno essere prevedibili. A seconda della performance delle Attività Sottostanti Lei potrebbe subire la perdita di una parte o della totalità del suo investimento.

Rischi relativi a determinate caratteristiche degli Strumenti Finanziari:

- I termini e le condizioni dei suoi Strumenti Finanziari prevedono che gli Strumenti Finanziari siano soggetti ad un *cap*. Pertanto, la sua capacità di partecipare in qualsiasi cambiamento nel valore delle Attività Sottostanti per tutta la durata degli Strumenti Finanziari sarà limitata, a prescindere da quanto il prezzo di un'Attività Sottostanti sia superiore al livello del *cap* nel corso di vita degli Strumenti Finanziari. Di conseguenza, il rendimento sui suoi Strumenti Finanziari potrebbe essere significativamente inferiore a quello che sarebbe stato se avesse acquistato le Attività Sottostanti direttamente.
- I termini e le condizioni dei suoi Strumenti Finanziari prevedono che il rendimento sugli Strumenti Finanziari dipende dalla performance '*worse-of*' del paniere delle Attività Sottostanti. Pertanto, lei sarà esposto alla performance di ciascuna Attività Sottostante e, in particolare all'Attività Sottostante con andamento peggiore. Ciò significa che, a prescindere dalla performance delle altre Attività Sottostanti, se una o più Attività Sottostanti non rispettano la relativa soglia o barriera per il pagamento degli interessi o il calcolo di qualsiasi importo di rimborso, lei potrebbe non ricevere il pagamento degli interessi e/o potrebbe perdere una parte o la totalità del suo investimento iniziale.

Rischi relativi ai Sottostanti:

- Il valore ed il rendimento dei vostri Strumenti Finanziari dipendono dall'*andamento delle Attività Sottostanti*. Il rendimento dei vostri Strumenti Finanziari può dipendere di uno o più Attività Sottostanti. Il prezzo di un'Attività Sottostante può essere soggetto nel tempo a modifiche imprevedibili. Questo grado di cambiamento è noto come "volatilità". La volatilità di un'Attività Sottostante può essere condizionata da eventi nazionali ed internazionali di natura finanziaria, politica, militare o economica, incluse azioni governative, o da azioni da parte dei partecipanti al mercato rilevante. Uno qualunque di questi eventi o azioni può influenzare negativamente il valore ed il rendimento degli Strumenti Finanziari. La volatilità non implica una direzione del prezzo di un'Attività Sottostante, anche se

un'Attività Sottostante che è più volatile è più probabile che aumenti o diminuisca di valore più spesso e/o in misura maggiore rispetto ad una che è meno volatile.

- *L'andamento passato di un'Attività Sottostante non è indicativo dell'andamento futuro.* Non dovete considerare informazioni relative all'andamento passato di un'Attività Sottostante come indicative del *range*, delle tendenze, o di fluttuazioni delle Attività Sottostanti che possano verificarsi in futuro. Le Attività Sottostanti possono avere un andamento diverso (o uguale) rispetto al passato, e ciò può avere un significativo effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.
- L'andamento delle Azioni dipende da fattori macroeconomici, come i livelli di interesse e prezzo sui mercati dei capitali, sviluppi valutari, fattori politici così come fattori specifici relativi alle società quali utili, posizione di mercato, situazione di rischio, struttura azionaria e politica di distribuzione, così come pure rischi di *business* cui sono esposti i relativi emittenti. Uno qualsiasi di tali fattori o una loro combinazione possono influenzare negativamente l'andamento delle Attività Sottostanti che, a sua (loro) volta, avrebbero un effetto negativo sul valore e sul rendimento dei vostri Strumenti Finanziari.
