Purpose of this Prospectus Supplement

The purpose of this Prospectus Supplement is to make certain changes to the "Risk Factors", "General Terms and Conditions of the Instruments", "General Terms and Conditions of the Notes", "Payout Conditions", "Share Linked Conditions", "Index Linked Conditions", "Form of Final Terms (Instruments)", and "Form of Final Terms (Notes)" sections of the Base Prospectus.

Amendments and updates to certain information in the Base Prospectus

The Base Prospectus, as supplemented prior to this Prospectus Supplement, is amended and supplemented as follows:

1. Amendments to the section entitled "Risk Factors"

The information in the section entitled "Risk Factors" is amended and supplemented:

- (i) by deleting sub-paragraph (h) of risk factor 5.1 (*Risks associated with Shares as Underlying Assets*), and replacing it with the following:

"(h) **The reference price used to determine any amount payable or to be delivered under the Securities may be adjusted depending on an anticipated dividend schedule or an anticipated or specified dividend yield**

The terms and conditions of your Securities may provide that the reference price used to determine any amount payable or to be delivered for specified relevant dates may be adjusted depending on the cash or other dividends declared in respect of the Share(s) or by reference to an anticipated or specified dividend yield. Such adjustments may be linked to the difference between the actual amount of such dividends compared with a prescribed schedule of anticipated dividends for such Share(s), or by calculating an adjusted reference price using the closing share prices on relevant days, the actual amount of such dividends and the anticipated or specified dividend yield. Such adjustment(s) may result in payments or deliveries under the Securities being delayed or not occurring, which might not have been the case if such adjustments did not apply. Such adjustment(s) may also result in the amounts otherwise payable or deliverable being reduced.

In addition, following the declaration of any cash or other dividends in respect of a Share, if the amount actually paid or delivered by the Share Issuer of a Share to holders of record of the Share is less than such declared dividend and/or the issuer of the Share declares an intention to reduce any such declared dividend, then the amount of such dividend used to adjust the relevant reference price may be adjusted. In such circumstances, the relevant dividend may be reduced and this is likely to result in you receiving a lower return on the Securities than you would have received than if such adjustment had not taken place."; and

- (ii) by amending the text under risk factor 5.4 (*Risks associated with Indices as Underlying Assets*) by inserting the following as a new sub-paragraph immediately after sub-paragraph (e):

"(f) **The reference price used to determine any amount payable under the Securities may be adjusted based on a specified decrement factor**

The terms and conditions of your Securities may provide that the reference price used to determine any amount payable for specified relevant dates may be adjusted by reference to a specified factor, prescribed formula and/or specified amount (a "**decrement factor**"). This may be done by calculating the reference price for relevant days using the closing index level or index level of an index for such relevant days, and adjusting it by applying a decrement factor. Such adjustment(s) may result in payments under the Securities being delayed or not occurring, which might not have been the case if such adjustments did not apply. Such adjustment(s) may also result in the amounts otherwise payable being reduced."
