I. RISK FACTORS RELATING TO THE ISSUER

1. Risks Involving the Legal Form and Organization of the Issuer

There is a risk that the Issuer may not or only partially be able to fulfil its obligations arising from the securities. Investors should therefore consider the credit quality of the Issuer when making investment decisions. The credit risk is understood to be the risk of insolvency or illiquidity of the Issuer, i.e. the possible, temporary or ultimate inability to meet its interest and principal payment obligations. Issuers with a low credit rating are usually associated with a higher insolvency risk.

Please also note that the credit quality of the Issuer may change before the securities mature due to developments in the overall economy or company-specific circumstances. Principal causes could be economic changes that have a lasting adverse impact on the earnings situation and solvency of the Issuer. Other causes include changes in individual companies, industries, or countries, e.g. economic crises, as well as political developments with significant economic repercussions.

In accordance with its articles of association, the Issuer of the securities, Société Générale Effekten GmbH, Frankfurt am Main, was formed solely for the purpose of issuing fungible securities and does not engage in any other independent operating activities. The liable capital stock of the Issuer amounts to EUR 25,564.59. **By acquiring securities from the Issuer, investors are exposed to a considerably higher credit risk compared to an issuer with much greater capital resources.**

The Issuer is not a member of a deposit guarantee fund or similar assurance system that would fully or partially cover the claims of security holders in the event of insolvency of the Issuer.

Securities in the form of bearer bonds are neither included in the guarantee bond of the Federal Government (Bundesregierung) dated 5 October 2008 for deposit protection nor in the deposit guarantee and investor compensation law or the deposit guarantee fund of the Federal Association of German Banks (Bundesverband Deutscher Banken).

In the case of the insolvency of the Issuer the investors will not have any right to any claims from such assurance institutes.

In addition to the insolvency risk of the Issuer, investors are also exposed to the insolvency risk of the parties with whom the Issuer concludes derivative transactions to hedge its obligations from the issue of securities. As opposed to an issuer with a more diversified range of potential contracting parties, the Issuer is subject to a cluster risk as it only concludes hedging transactions with affiliated companies. In this context, cluster risk is the credit risk ensuing from the limited range of potential contracting parties with whom various hedging transactions can be conducted. There is a risk that the insolvency of companies affiliated to the Issuer could directly trigger the insolvency of the Issuer.

2. Risks Relating to the Economic Activities of the Issuer

The Issuer is primarily engaged in issuing and selling securities. The Issuer's activities and annual issue volume may be influenced by negative trends on the markets in which it operates. Difficult market conditions, however, may lead to a lower Issue volume and adversely impact the Issuer's results of operations.

The general market trend for securities is primarily linked to capital market trends, themselves shaped by the global economy as well as economic and political factors at national level (market risk).

II. RESPONSIBILITY FOR THE INFORMATION IN THE REGISTRATION DOCUMENT

Société Générale Effekten GmbH, Frankfurt am Main, as the Issuer, and Société Générale, Paris, as the Offeror, assume responsibility for the information contained in this registration document. They also declare that the information contained in the Registration Document is, to the best of their knowledge, accurate and does not contain any material omissions.

III. AUDITOR AND SELECTED FINANCIAL INFORMATION

1. Auditor

The financial statements of Société Générale Effekten GmbH, Frankfurt am Main for the fiscal year 2011 (from January 1, 2011 to December 31, 2011) were audited by Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft, Franklinstraße 50, D-60486 Frankfurt am Main, and an unqualified audit opinion was issued thereon.

Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft is a member of the public law institution German Chambers of Auditors ("Wirtschaftsprüferkammer K.d.ö.R."), Rauchstrasse 26, D-10787 Berlin.

The financial statements of Société Générale Effekten GmbH, Frankfurt am Main for the fiscal year 2012 (from January 1, 2012 to December 31, 2012) were audited by Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft, Franklinstraße 50, D-60486 Frankfurt am Main, and an unqualified audit opinion was issued thereon.

Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft is a member of the public law institution German Chambers of Auditors ("Wirtschaftsprüferkammer K.d.ö.R."), Rauchstrasse 26, D-10787 Berlin

- d) No significant non-cash investment or financing operations or transactions were entered into in the reporting period.
- e) The Company did not purchase or sell any companies in the reporting period.

IV. INFORMATION ON THE ISSUER

1. History and Business Performance

Société Générale Effekten GmbH (hereinafter also referred to as the “Issuer” or “SGE” or the “Company”) has its registered office in Frankfurt am Main and is entered in the commercial register of Frankfurt local court under no. HRB 32283. It came into existence after LT Industriebeteiligungs-Gesellschaft mbH, which was founded on March 3, 1977, was renamed by resolution of the shareholders’ meeting on October 5, 1990. Société Générale Effekten GmbH was founded as a limited liability company (*Gesellschaft mit beschränkter Haftung* - GmbH) under German law.

The business address and telephone number of the Issuer are:

Société Générale Effekten GmbH
Neue Mainzer Straße 46-50
D-60311 Frankfurt am Main
Tel. 069/71 74 0

2. Business Overview

The business purpose of the Issuer, as stipulated in Sec. 2 of its articles of association, is the issue and sale of securities as well as related activities, with the exception of those requiring a license. The Company is engaged in the issue and placement of securities, mainly warrants and certificates, as well as related activities. In the fiscal year 2012, the Company issued a total of 32,400 warrants and certificates (prior year: 22,970). Banking business as defined by the German Banking Act (*Kreditwesengesetz - KWG*) is not included by the business purpose. The Issuer is a financial entity as defined in Sec. 1 (3) Sentence 1 No. 5 KWG.

The securities are primarily issued on the German and Austrian market. The German capital market is one of the most important derivatives markets. The securities may also be sold publicly in certain other EU member states.

3. Organizational Structure

The Issuer is a wholly owned subsidiary of Société Générale, Paris. According to its own appraisal, Société Générale group (the **Group**) is one of the leading financial services groups in the Eurozone. The Group Société Générale’s teams offer advisory and other services to individual customers, companies and institutions as part of three main business lines:

- Retail Banking in France under the Société Générale, Crédit du Nord and Boursorama brands;
- International Retail Banking, which is present in Central and Eastern Europe, Russia, the Mediterranean Basin, Sub-Saharan Africa, Asia and in the French Overseas territories;

- Corporate and Investment Banking with its broad range of expertise in investment banking, finance and market activities.

Societe Generale is also a major player in the businesses of Specialised Financial Services and Insurance, and Private Banking, Global Investment Management and Services.

The principal markets in which the Group is operating are France and other European Union countries.

Société Générale, the parent company of the Group, is listed on the Euronext Paris (Nyse-Euronext).

The issuer is a 100 per cent. subsidiary of Société Générale, Paris, France, and consequently a part of the Société Générale-Group. Service level agreements are in place between the Issuer and Société Générale. Within the scope of these service level agreements the Issuer has access to resources of Société Générale, Frankfurt am Main branch, and/or Société Générale, Paris.

The consolidated financial statements prepared by the parent company can be inspected at Société Générale, Frankfurt branch, Frankfurt am Main.

4. Trend Information

Since the date of its last published audited financial statements on December 31, 2012, there has been no material adverse change in the prospects of the Issuer.

5. Management and Company Representatives

The general managers of Société Générale Effekten GmbH are currently Dr. Joachim Totzke, Frankfurt am Main and Mr. Jean-Louis Jégou, Frankfurt am Main. Mr. Günter Happ, Flieden, has terminated his engagement as general manager as of November 27, 2012. Furthermore, Mr. Achim Oswald, Frankfurt am Main and Ms. Jeanette Plachetka, Köln were granted full commercial power of attorney to represent the company in all normal business matters. Dr. Joachim Totzke and Mr. Jean-Louis Jégou can be contacted at Société Générale, Frankfurt am Main branch, Neue Mainzer Straße 46-50, D-60311 Frankfurt am Main.

The Company is represented jointly by two general managers or by one general manager together with an authorized signatory.

The articles of association do not contain any provisions on the appointment of a supervisory board. No supervisory board existed during the past fiscal year.

Provided that the above named persons perform any activities out of the range of the scope of the Issuers activities, these activities are not relevant for the Issuer.

There are no potential conflicts of interest between the obligations of the general managers in respect of Société Générale Effekten GmbH and their private interests and other obligations.

The issuer as a capital market-oriented company according to Sec. 264d HGB (German Commercial Code (Handelsgesetzbuch, "HGB")) has established an audit committee according to Sec. 324 HGB. This audit committee consists of the following members :

Mr. Peter Boesenberg (Chairman) (since December 10, 2012)
Ms. Catherine Bittner
Mr. Achim Oswald
Mr. Francis Repka (Chairman) (until August 1st, 2012)

Mr. Guido Zoeller (from August 1st, 2012 to December 10, 2012)

The Audit Committee concentrates on the development of net assets, the financial position, and results of operations at least once every year – in particular for the annual financial statements. The shareholder is obligated to adopt the annual financial statements as part of the annual financial statement process. In order to fulfill these duties, the financial statement documents, including management's recommendation on the utilization of unappropriated net profits, are made available to the Audit Committee along with the auditors' preliminary report.

German Corporate Governance Codex

As the Issuer is not a stock exchange listed company it does not comply with the German Corporate Governance Codex as amended on the 15 May 2012.

- d) No significant non-cash investment or financing operations or transactions were entered into in the reporting period.
- e) The Company did not purchase or sell any companies in the reporting period.

Notes to the annual financial statements for the period ended December 31, 2012, and other disclosures

The annual financial statements of Société Générale Effekten GmbH for the period ended December 31, 2012, were prepared in accordance with the accounting regulations of the German Commercial Code (Handelsgesetzbuch, "HGB") and the supplementary provisions of the German Limited Liability Companies Act (Gesetz betreffend die Gesellschaften mit Beschränkter Haftung, "GmbHG"), in compliance with German accepted accounting principles.

1. Recognition and valuation principles

Receivables are measured at nominal value plus accrued interest. Liabilities not covered by hedging transactions are measured at the settlement amount.

Deferred taxes are calculated based on temporary differences between the financial and tax accounts in accordance with section 274 HGB. They were presented in the balance sheet as deferred tax assets based on pension provisions in the amount of EUR 6,030.50. The tax rate used to calculate deferred taxes was 31.93%.

Provisions for pensions were measured at the settlement amount necessary according to prudent business judgment (Section 253 I 2 HGB), based on actuarial principles and the Mortality Tables 2005 G. They are discounted to present value at an average market rate based on an estimated remaining term of 15 years (Section 253 II 2 HGB). The projected unit credit method is applied as the actuarial method of measurement. An actuarial interest rate of 5.06% (previous year: 5.13%), a compensation trend of 2.90% (previous year: 2,90%) and a pension trend of 1.90% (previous year: 1,90%) were used as parameters for the pension provisions. The effects of interest rate changes are presented under net operating income/expenses. Other provisions due in one year or less are not discounted to present value.

Option premiums are recognized as other assets or other liabilities until they are exercised or expire. When they are exercised or expire, they are transferred to profit or loss.

Issued certificates are presented as liabilities under issued certificates until they mature. The issued certificates are offset by hedging transactions that are presented under receivables from affiliated companies.

The liabilities under issued certificates and warrants and the hedging transactions presented under receivables and other assets were aggregated into valuation units and recognized both as liabilities measured at cost and as assets measured in the amount of the issue proceeds. It represents a perfect micro-hedge. They are not measured in accordance with Section 254 HGB because they are classified as a valuation unit; thus, the net hedge presentation method was applied, under which

offsetting value changes are not recognized (Section 285 (19b) and (c) HGB and Section 285 (23) (a) and (b) HGB). It was not necessary to recognize impairments of receivables and other assets. The warrants and certificates issued as of the balance sheet date were completely hedged against changes in market prices by means of hedging transactions with the shareholder.

In addition, the Company operates under a trust agreement with the sole shareholder, Société Générale S.A., Paris.

The certificates issued under trust transactions are covered by hedging transactions presented under trust assets. These transactions are recognized at cost.

2. Notes to the balance sheet

Receivables from affiliated companies, which are owed by the shareholder, amount to EUR 17,496,275 thousand (previous year: EUR 28,261,518 thousand). Credit balances with banks in the amount of EUR 470 thousand (previous year: EUR 0 thousand) are presented within other receivables.

Other assets mainly include the OTC options purchased by the shareholder to hedge the issued warrants.

Trust receivables consist of funds passed on to the shareholder from several certificates issued on behalf of the shareholder.

Other provisions result mainly from provisions for issuing costs and for auditing and consulting expenses.

Trust liabilities include the issue of certificates issued in the Company's own name for account of third parties.

Issues (certificates) denominated in foreign currencies are presented under the asset item "receivables from the investment of issue proceeds" and under the liability item "liabilities under issued certificates" (EUR 1,166,517 thousand from USD and EUR 1,173,460 thousand from GBP, respectively). These amounts were translated to euros at the official mean rate of exchange at December 31, 2012.

Issues (warrants) denominated in foreign currencies are presented under the asset item "other assets" and under the liability item "other liabilities" (EUR 52,435 thousand from SEK, respectively). These amounts were translated at the official mean rate of exchange at December 31, 2012.

Maturity Structure of Receivables and Liabilities				
In euro thousands	Total Amount	Maturing in 1 year or less	Maturing in 1 to 5 years	Maturing in more than 5 years
Receivables				
- From the investment of issue proceeds	17,494,895	6,357,421	8,503,400	2,634,074
- Other receivables	1,378	1,378	0	0
- Trust receivables	5,773,414	676,689	4,057,882	1,038,843
Other assets	7,164,312	1,581,833	4,621,620	960,859
Liabilities				
- Under issued certificates	17,494,895	6,357,421	8,503,400	2,634,074
- Trade payables	58	58	0	0
- To affiliated companies	63	63	0	0
- Trust liabilities	5,773,414	676,689	4,057,882	1,038,843
Other liabilities	7,164,314	1,581,835	4,621,620	960,859

3. Notes to the income statement

The income statement was prepared using the cost summary method.

Other operating income relates mainly to costs assumed by the shareholder.

Other operating expenses comprise mainly issuing costs and legal and consulting expenses, as well as stock exchange costs.

Taxes on income relate to the result from ordinary activities.

4. Notes regarding the issue business

The issue volume in the 2012 fiscal year is presented below. All issues are completely hedged by entering into OTC options with identical terms and/or the investment of issue proceeds on the part of Société Générale S.A., Paris.

As a rule, the fair value of the financial derivatives and debt securities with embedded derivatives are calculated using market values; in the case of illiquid markets, they are measured based on internal models. These "in-house valuation models" are periodically tested by specialists from the risk department of Société Générale S.A., Paris. Derivative financial instruments similar in nature to options are measured by Société Générale S.A., Paris using generally accepted option price models.

If an active market exists, quoted prices from stock exchanges, brokers and price discovery agencies are used.

The type, scope, and fair values of the derivative hedging transactions as of the balance sheet date are as follows: The Company holds 7,060 OTC options with a market value of EUR 3,966 million to hedge equities and index warrants, 545 OTC options with a market value of EUR 437 million to hedge currency warrants and 3,790 OTC options with a market value of EUR 12,439 million to hedge warrants on commodities.

In addition, the Company holds 15,451 certificates with a market value of EUR 24,061 million.

The carrying amount of the warrants presented herein for the period ended December 31, 2012, is EUR 7,164 million and is presented in the balance sheet under other liabilities. The carrying amount of the issued certificates for the period ended December 31, 2012, is EUR 23,268 million and is presented in the balance sheet under liabilities under issued certificates and under trust liabilities.

5. Disclosures regarding professional fees recognized as expenses in the fiscal year

The professional fee for the 2012 audit recognized as an expense in the 2012 fiscal year amounts to EUR 50 thousand.

6. Disclosures regarding board members and employees

The following individuals were appointed as managing directors in the 2012 fiscal year:

Mr. Jean-Louis Jégou, trained banker, Frankfurt am Main

Dr. Joachim Totzke, general counsel, Frankfurt am Main

Mr. Günter Happ, trained banker, Flieden (until November 27, 2012)

The managing directors are salaried employees of Société Générale S.A., Frankfurt am Main branch office. Expenses totaling EUR 12 thousand were charged to Société Générale Effekten GmbH in fiscal year 2012 as compensation for the managing directors.

The Company had an average of 1.5 employees during the fiscal year.

As a capital market-oriented company, an Audit Committee was set up in accordance with Section 264d HGB, comprising the following members:

Mr. Peter Boesenberg (Chairman) (from December 10, 2012)

Ms. Catherine Bittner

Mr. Achim Oswald

Mr. Francis Repka (until August 1, 2012)

Mr. Guido Zoeller (from August 1 to December 10, 2012))

7. Group affiliation

The parent company of Société Générale Effekten GmbH, which prepares consolidated financial statements, is Société Générale S.A., Paris. The publication of the consolidated financial statements of Société Générale S.A., Paris, is announced in France in the "Bulletin des Annonces Légales Obligatoires (B.A.L.O.) in the section entitled "Publications Périodiques" (R.C.S: 552 120 222).

The consolidated financial statements are available on the company's website at www.socgen.com.

Notes to the annual financial statements for the period ended December 31, 2011, and other disclosures

The annual financial statements of Société Générale Effekten GmbH for the period ended December 31, 2011, were prepared in accordance with the accounting regulations of the German Commercial Code (Handelsgesetzbuch, "HGB") and the supplementary provisions of the German Limited Liability Companies Act (Gesetz betreffend die Gesellschaften mit Beschränkter Haftung, "GmbHG") in compliance with German accepted accounting principles.

1. Accounting policies

Receivables are recognized at nominal value plus accrued interest. Liabilities not covered by hedging transactions are recognized at the settlement amount.

Deferred taxes are calculated based on temporary differences between the financial and tax accounts in accordance with section 274 HGB. They were presented as deferred tax assets in the amount of EUR 4,086.00 in the balance sheet based on pension provisions. The tax rate used to calculate deferred taxes was 31.93%.

Provisions for pensions were measured at the settlement amount necessary according to prudent business judgment (section 253 (1) sentence 2 HGB) based on actuarial principles taking into account the mortality tables 2005 G. They are discounted at an average market rate based on an estimated remaining term of 15 years (section 253 (2) sentence 2 HGB). The projected unit credit method is applied as the actuarial method of measurement. An actuarial interest rate of 5.13% (previous year: 5.15%), a benefits dynamic of 2.90% (previous year: 2.79%), and a pension dynamic of 1.90% (previous year: 1.79%) were used as parameters for the provisions for pension commitments.

Liabilities are recognized at their settlement amount (section 253 (1) sentence 1 HGB).

Option premiums are recorded as other assets or other liabilities until they are exercised or expire. When they are exercised or expire, they are transferred to profit or loss.

Issued certificates are presented as liabilities under issued certificates until they are payable. The issued certificates are offset by hedging transactions that are presented under receivables from affiliated companies.

Liabilities under issued certificates and warrants are recognized in the amount of the issuing proceeds. They are presented with the hedging transactions under receivables and other assets and summarized as hedges; they represent perfect micro-hedges. According to the net hedge presentation method (section 285 no. 19b and c HGB as well as section 285 no. 23 a and b HGB), the offsetting changes in value are not recognized. It was not necessary to recognize impairment allowances for receivables and other assets.

The warrants and certificates issued as of the balance sheet date were completely hedged against changes in market prices by means of hedging transactions with the shareholder.

In addition, the Company operates under a trust agreement with the sole shareholder, Société Générale Paris.

The certificates issued under trust transactions are covered by hedging transactions presented under trust assets. These transactions are recognized at cost.

2. Balance sheet disclosures

Other assets mainly include the OTC options acquired by the shareholder to hedge the issued warrants.

Receivables from affiliated companies amount to EUR 28,261,518 thousand (previous year: EUR 49,360,224 thousand) owed by the shareholder.

Trust receivables consist of funds passed on to the shareholder from several certificates issued on behalf of the shareholder.

Other provisions result mainly from provisions for issuing costs as well as auditing and consulting expenses.

Trust liabilities include the issue of certificates issued in the Company's own name on behalf of third parties.

Issues denominated in foreign currencies are presented under the asset item "receivables from the investment of issuing proceeds" and under the liability item "liabilities under issued certificates" (respectively EUR 1,025,049 thousand from USD and EUR 1,146,487 thousand from GBP). These amounts were translated to euros at the mean rate of exchange prevailing on December 30, 2011.

Maturities schedule of receivables and liabilities				
in € thousands	Total amount	Remaining term		
		up to 1 year	1 to 5 years	more than 5 years
Receivables				
- from the investment of issuing proceed	28,259,795	10,765,485	14,506,496	2,987,814

3. Income statement disclosures

The income statement was prepared using the total cost (nature of expense) method.

Other operating income relates mainly to costs assumed by the shareholder.

Other operating expenses comprise mainly issuing costs and legal and consulting expenses as well as costs associated with stock exchanges.

Taxes on income relate to the result from ordinary activities.

4. Disclosures regarding new issue activities

The issue volume in the 2011 fiscal year is presented below: all issues are completely hedged by entering into OTC options with identical terms and/or the investment of issuing proceeds on the part of Société Générale, Paris.

As a rule, the fair value of the financial derivatives and debt securities with embedded derivatives are calculated using market values; in the case of illiquid markets, they are measured

based on internal models. These "in-house valuation models" are periodically tested by specialists from the risk department of Société Générale, Paris. Derivative financial instruments similar in nature to options are measured using generally accepted option price models by Société Générale, Paris.

If an active market exists, quoted prices from stock exchanges, brokers and price finding agents are used.

The type, scope, and fair value of the derivative hedging transactions as of the balance sheet date is presented below: the Company holds 3,155 OTC options with a fair value of EUR 3,563 million to hedge equities and index warrants, 400 OTC options with a fair value of EUR 456 million to hedge currency warrants and 4,186 OTC options with a fair value of EUR 13,668 million to hedge warrants on commodities.

In addition, the Company holds 10,497 certificates with a fair value of EUR 31,716 million.

The carrying amount of the warrants listed here for the period ended December 31, 2011, is EUR 9,004 million and is included in the balance sheet under other liabilities. The carrying amount of the issued certificates for the period ended December 31, 2011, is EUR 28,260 million and is presented in the balance sheet under liabilities under issued certificates or under trust liabilities.

c) Financial Statements

Attached as exhibits I and II to this registration document are the financial statements as of December 31, 2011 and December 31, 2012, the management reports of the Issuer, Société Générale Effekten GmbH, the cash flow statements for fiscal years 2011 and 2012 and the relevant audit opinions.

d) Audit of the Financial Information

The financial statements of Société Générale Effekten GmbH, Frankfurt am Main for the fiscal year 2011 (from January 1, 2011 to December 31, 2011) were audited by Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft, Franklinstraße 50, D-60486 Frankfurt am Main, and an unqualified audit opinion was issued thereon.

The financial statements of Société Générale Effekten GmbH, Frankfurt am Main for the fiscal year 2012 (from January 1, 2012 to December 31, 2012) were audited by Deloitte & Touche GmbH Wirtschaftsprüfungsgesellschaft, Franklinstraße 50, D-60486 Frankfurt am Main, and an unqualified audit opinion was issued thereon.

e) Interim Financial Information

Since the end of the last fiscal year, no interim financial information has been prepared.

f) Significant Court or Arbitration Proceedings

Any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the issuer is aware), during a period covering at least the previous 12 months which may have, or have had in the recent past, significant effects on the issuer and/or group's financial position or profitability, do not exist or have not existed.

g) Significant Changes in the Financial Position or Trading Position of the Issuer

Since the end of the last fiscal year, 31 December 2012, no significant changes in the financial or trading position of the Group have occurred.

7. Additional Notes

The fully paid-in capital stock of Société Générale Effekten GmbH amounts to EUR 25,564.59. All shares in the Company are held by Société Générale, Paris.

Société Générale Effekten GmbH is entered in the commercial register of Frankfurt local court under no. HRB 32283.

The business purpose of the Company, which is stipulated in Art. 2 of its articles of association dated October 5, 1990, is the issue and sale of securities as well as related activities, with the exception of those requiring a license.

8. Significant Contracts

With effect from February 28, 2006, Société Générale Effekten GmbH concluded a framework trust agreement with Société Générale, Paris. The trust agreement governs the issue of debt securities in Société Générale Effekten GmbH's name for the account of Société Générale, Paris. Société Générale Effekten GmbH agrees to receive all proceeds from the issue of debt securities and pass them on to Société Générale, Paris. The trust agreement was concluded for a one-year term and will renew itself automatically by one more year unless it has been terminated with 15 days' notice.

Furthermore, Société Générale Effekten GmbH and Société Générale, Paris have entered into an agreement on May 1, 2005 regarding the refunding of the costs incurred by Société Générale Effekten GmbH in connection with its issuing activities. Under the terms of the agreement, Société Générale Effekten GmbH also receives a monthly management fee of 5% of the issue costs.

9. Documents Available for Inspection

The documents named in this registration document relating to Société Générale Effekten GmbH and intended for publication are available for inspection at Société Générale, Frankfurt am Main branch, Neue Mainzer Strasse 46 - 50, D-60311 Frankfurt am Main, during normal office hours.

While this registration document is valid, a copy of the following documents can be inspected in paper form in particular:

- The articles of association as amended on October 5, 1990
- The financial statements as of December 31, 2011 and as of December 31, 2012 and the management reports for fiscal years 2011 and 2012 of Société Générale Effekten GmbH

V. EXHIBIT I: Financial statements, management report, audit opinion and cash flow statement as of December 31, 2012

- 1. Management Report for Fiscal Year 2012**
- 2. Balance Sheet as of December 31, 2012**
- 3. Income Statement for Fiscal Year 2012**
- 4. Notes to the Annual Financial Statements for Fiscal Year 2012**
- 5. Cash Flow Statement**
- 6. Statement of Changes in Equity for Fiscal Year 2012**
- 7. Auditor's Report**

**Société Générale Effekten GmbH
Frankfurt am Main**

**Management Report
for Fiscal Year 2012**

Strategic orientation

Société Générale Effekten GmbH issues warrants and certificates that are sold entirely to the parent company Société Générale S.A., Paris, as well as Société Générale Option Europe S.A., Paris, and Inora LIFE Limited, Dublin, all of which are wholly owned subsidiaries of Société Générale S.A.

This activity has no influence on the issuer's economic situation, because the issues are placed whenever possible with end buyers by Société Générale S.A., Paris.

Business developments

The 2012 fiscal year was characterized by an increase in issue volume in the areas of warrants and certificates compared to the prior year.

The amount issued per product decreased significantly in 2011 as a result of the introduction of the "up-to global note," which also led to a reduction in total assets. With this process, the amount of the issue depends on the expected demand and can be increased incrementally as necessary. This reduces non-placement of the issue volume.

In fiscal year 2012, warrants were issued in a total of 17,719 issues (previous year: 10,150). In addition to 6,967 issues on equities, 5,885 issues were floated on various indices, 430 on fixed income, 207 on currencies and 4,230 on commodities.

Furthermore, 14,681 certificate products were issued in 2012 (previous year: 12,820), mainly bonus and discount certificates again.

Financial position, cash flows and results of operations

Financial position

Total assets decreased year-on-year by EUR 12,725 million to EUR 30,434 million.

The Company's subscribed capital remains unchanged at EUR 26 thousand. In addition, the Company has retained profits brought forward in the amount of EUR 591 thousand at its disposal. The Company's equity was increased to EUR 833 thousand (previous year: EUR 617 thousand) by the amount of net income earned in 2012, in the amount of EUR 215 thousand (previous year: EUR 103 thousand).

All receivables are owed by the sole shareholder. There are no default risks beyond the Société Générale Group.

Results of operations

The Company does not earn a profit from new issue activities, because the proceeds from sales of issued warrants and certificates are always offset by the expenses for the purchase of corresponding hedging transactions.

Personnel and other operating expenses are charged to Société Générale S.A., Paris, based on a “cost-plus” rule. By virtue of this concept, the Company cannot incur a fiscal year net loss, regardless of sales revenue.

Cash flows

The nature and execution of the Company's business activities are designed to ensure that its cash flows are always balanced. Cash transactions arise from the issues and the corresponding hedging transactions, from the settlement of personnel and other operating expenses and from the charging of these expenses to Société Générale S.A., Paris.

Risk Report

The Company's risk situation is largely determined by the simplicity of its business structure and by its close affiliation with the Société Générale Group.

Default risks

The Company is not exposed to settlement risk, since payments from sales of issued securities are always offset by payments for hedges and payments related to the exercise of warrants. Receivables are owed exclusively by the parent company Société Générale S.A., Paris. The creditworthiness of Société Générale S.A., Paris, and its subsidiaries is the determining factor for assessing the Company's risk.

Market price risks

All market price risks from issued warrants and certificates are fully hedged by means of hedging transactions entered into with Société Générale S.A., Paris. Therefore, there are no price risks or interest rate risks.

Liquidity risks

The daily monitoring of cash flows and close coordination with the back-office departments in Paris ensure that the Company is always in a position to meet its payment obligations.

Due to the Company's affiliation with the Société Générale Group, there are no identifiable liquidity risks at the present time.

Operational risks

Société Générale S.A., Paris, has developed processes and systems to monitor and manage operational risks that are used by Société Générale Effekten GmbH. These processes and systems are mainly based on the principle of permanent supervision.

Using special applications, the processes are documented and evaluated on the basis of pre-defined criteria, in order to rule out losses from operational risks. To this end, the Company also takes precautionary measures based on the Business Continuity Plan (BCP), in order to maintain normal business operations even in the event of infrastructure malfunctions. The same rules and principles that apply to Société Générale Effekten GmbH apply also to the outsourced processes in the service centers in Bangalore and Bucharest.

There were no operational risks in fiscal year 2012.

Internal control and risk management system with respect to the accounting process

With respect to the accounting process, the internal control system (ICS) and risk management system (RMS) comprise the basic principles, processes, and measures to ensure the effectiveness and efficiency of the accounting process and ensure compliance with the relevant legal provisions, as well as the hedging of risks and the formation of valuation units. It ensures that the assets and liabilities are correctly recognized, presented and measured in the financial statements.

Responsibilities in the accounting-related ICS and RMS

Responsibilities of the Management and the Audit Committee

The Management manages the Company under its own responsibility and works together in trust with the Company's other governing bodies for the benefit of the Company. Its responsibilities include overall responsibility for the preparation of the annual financial statements.

The Management warrants to the best of its knowledge that the annual financial statements represent a true and fair view of the Company's financial position, cash flows and results of operations, in accordance with the applicable accounting principles.

The Management determines under its own responsibility the scope and orientation of the ICS and RMS, which are specifically designed for the Company, and undertakes measures to further develop the systems and to adjust them to changing conditions.

The value systems practiced for years in all the countries of the Société Générale Group and therefore also by Société Générale Effekten, such as the "Code of Conduct" and the "Compliance Rules," etc., form the basis for responsible behavior, also for the employees charged with performing the accounting process.

The Company's employees are required to complete a computer-aided learning course on money laundering and compliance once a year.

Despite all risk-mitigating measures established within the scope of the ICS and RMS, even appropriate and well-functioning systems and processes cannot guarantee with absolute certainty that all risks will be identified and managed. The Accounting Department is responsible for the accounting process and in particular for the process of preparing the annual financial statements. The Accounting Department is supported by the back-office departments of Société Générale S.A., Paris, in particular with respect to the measurement of financial instruments and receivables.

The data processing systems necessary for the accounting process are provided by the parent company.

In order to support the Management with respect to the accounting process, an Audit Committee was set up comprising three individuals (one salaried employee of Société Générale Effekten GmbH and two salaried employees of Société Générale at the Frankfurt branch office). The Audit Committee concentrates on the development of the Company's financial position, cash flows and results of operations at least once a year –particularly in connection with the annual financial statements. It is the shareholder's responsibility to adopt the annual financial statements as part of the annual financial statements process. The financial statements documents, including the Management's recommendation on the utilization of the unappropriated net profit, are presented to the Audit Committee along with the auditors' preliminary report, so that the Audit Committee can fulfill its duties. In addition, a summary report on issuance activity and the accounting treatment thereof is submitted to the members of the Audit Committee once every quarter.

Organization and components of the accounting-related internal control and risk management system

Process and execution of the preparation of the financial statements of Société Générale Effekten GmbH.

A back office of the parent company in Paris records the transactions to be processed by Société Générale Effekten GmbH centrally by entering the data into product-specific applications. The transactions entered into (contracts) are recorded in these applications and approved after review by a second individual.

The Company outsourced accounts payable for supplier invoices to Bangalore in May 2011.

This accounting process is performed in Bangalore by Société Générale Global Solution Centre Private Limited (99% subsidiary of Société Générale S.A., Paris).

The services to be rendered are set forth for Société Générale Effekten GmbH in the service agreement between Société Générale S.A., branch office Frankfurt and Société Générale Global Solution Centre Private Limited, Bangalore.

The scanned records are recorded and assigned to accounts in Bangalore; approval and release for payment are handled by employees of the Company.

The production of head office reports and the production of regulatory reports to Deutsche Bundesbank were outsourced to Bucharest in July 2012.

In Bucharest, this activity is performed by Société Générale European Business Services S.A. (99.95% subsidiary of Société Générale S.A., Paris).

The services to be rendered for Société Générale Effekten GmbH are defined in the Client Services Agreement between Société Générale S.A., Frankfurt branch office, and Société Générale European Business Services SA, Bucharest.

The accounting records of Société Générale Effekten GmbH are still maintained on the central server in Paris; all data relevant to the accounting of Société Générale Effekten GmbH is processed and stored on this server.

Employees of the Company in Frankfurt perform the daily monitoring of current cash accounts, thereby ensuring the supervision of outsourced activities. The information recorded in the accounting area for business operations in general and for facts and circumstances related to accounting matters in particular is accessed online via the intranet. Technical system maintenance with respect to the preparation of the financial statements is outsourced to the subsidiary responsible for IT in the SG Group.

The parent company is responsible for monitoring this process. The technical support processes in the central advisory unit are defined in procedural directives. The parent company is responsible for backing up and archiving the data stored in the application systems. The statutory retention periods are observed. Contingency planning is updated and monitored by employees of the Company. The central data security systems for the mainframe computer and the storage networks for the Open Systems area form the primary basis for data security. The data is mirrored redundantly in Paris.

The necessary protection from unauthorized access and the maintenance of functional separation with respect to the use of the Company's application systems relevant to accounting are ensured in particular by the concept of workstation profiles and by processes to create the workstation profiles. The workstation profiles are issued to the individual back office departments in Paris and to the employees of the service centers in Bangalore and Bucharest and monitored by authorized individuals in the Company using a specially developed system.

Documentation of processes

As a subsidiary of Société Générale Paris, S.A., the Company observes standard process documentation rules, which are summarized in the "Accounting & Finance Handbook." The main components of the documented processes are automated controls to ensure the accuracy of data inputs.

The most important procedures of the accounting process were transferred to the "MORSE" application in 2012. This application helps to complete the documentation process and to ensure the availability of a suitable instrument for assuring the accounting process in the event of internal audits.

Continuous further development of the ICS and RMS

As part of the further development of the ICS and RMS, the Company carried out additional projects and measures that contributed to strengthening the ICS and RMS. These included reviewing the processes related to the preparation of monthly results and recording them in a process cartography. Moreover, additional relevant processes were successively adopted and incorporated into the standard ICS and RMS based on the previously achieved process documentation basis.

Any changes in legal requirements and regulations with respect to the accounting process are to be reviewed to determine whether and what consequences they have for the accounting process. The Company's local accounting department is responsible for conducting such reviews. Changes or new regulations that have a significant effect on the accounting process are added to the existing process cartography. All measures such as adjustments to electronic data processing, work processes and posting rules, among other things, are analyzed and implemented accordingly in the back office departments in Paris and the outsourced service departments in Bangalore and Bucharest and are monitored and supervised by employees in the Company in Frankfurt.

Events after the reporting date

There were no significant events that could have a potential effect on the financial position, cash flows and results of operations after the reporting date.

Forecast report/Outlook

Issuing activities for the 2013 fiscal year depend on current developments in the financial markets.

As in the previous years, the Company intends to offer a wide range of products in 2013.

The Company intends to continue the issuing activity begun in Austria in 2011 and the issuing activity in the Swedish market begun in 2012.

Net income in fiscal years 2013 and 2014 will be positive, considering the strict risk hedging policy.

**Société Générale Effekten GmbH
Frankfurt am Main**

**Notes to the Financial Statements
for Fiscal Year 2012**

Notes to the annual financial statements for the period ended December 31, 2012, and other disclosures

The annual financial statements of Société Générale Effekten GmbH for the period ended December 31, 2012, were prepared in accordance with the accounting regulations of the German Commercial Code (Handelsgesetzbuch, "HGB") and the supplementary provisions of the German Limited Liability Companies Act (Gesetz betreffend die Gesellschaften mit Beschränkter Haftung, "GmbHG"), in compliance with German accepted accounting principles.

1. Recognition and valuation principles

Receivables are measured at nominal value plus accrued interest. Liabilities not covered by hedging transactions are measured at the settlement amount.

Deferred taxes are calculated based on temporary differences between the financial and tax accounts in accordance with section 274 HGB. They were presented in the balance sheet as deferred tax assets based on pension provisions in the amount of EUR 6,030.50. The tax rate used to calculate deferred taxes was 31.93%.

Provisions for pensions were measured at the settlement amount necessary according to prudent business judgment (Section 253 I 2 HGB), based on actuarial principles and the Mortality Tables 2005 G. They are discounted to present value at an average market rate based on an estimated remaining term of 15 years (Section 253 II 2 HGB). The projected unit credit method is applied as the actuarial method of measurement. An actuarial interest rate of 5.06% (previous year: 5.13%), a compensation trend of 2.90% (previous year: 2,90%) and a pension trend of 1.90% (previous year: 1,90%) were used as parameters for the pension provisions. The effects of interest rate changes are presented under net operating income/expenses. Other provisions due in one year or less are not discounted to present value.

Option premiums are recognized as other assets or other liabilities until they are exercised or expire. When they are exercised or expire, they are transferred to profit or loss.

Issued certificates are presented as liabilities under issued certificates until they mature. The issued certificates are offset by hedging transactions that are presented under receivables from affiliated companies.

The liabilities under issued certificates and warrants and the hedging transactions presented under receivables and other assets were aggregated into valuation units and recognized both as liabilities measured at cost and as assets measured in the amount of the issue proceeds. It represents a perfect micro-hedge. They are not measured in accordance with Section 254 HGB because they are classified as a valuation unit; thus, the net hedge presentation method was applied, under which offsetting value changes are not recognized (Section 285 (19b) and (c) HGB and Section 285 (23) (a) and (b) HGB). It was not necessary to recognize impairments of receivables and other assets.

The warrants and certificates issued as of the balance sheet date were completely hedged against changes in market prices by means of hedging transactions with the shareholder.

In addition, the Company operates under a trust agreement with the sole shareholder, Société Générale S.A., Paris.

The certificates issued under trust transactions are covered by hedging transactions presented under trust assets. These transactions are recognized at cost.

2. Notes to the balance sheet

Receivables from affiliated companies, which are owed by the shareholder, amount to EUR 17,496,272 thousand (previous year: EUR 28,261,518 thousand). Credit balances with banks in the amount of EUR 470 thousand (previous year: EUR 0 thousand) are presented within other receivables.

Other assets mainly include the OTC options purchased by the shareholder to hedge the issued warrants.

Trust receivables consist of funds passed on to the shareholder from several certificates issued on behalf of the shareholder.

Other provisions result mainly from provisions for issuing costs and for auditing and consulting expenses.

Trust liabilities include the issue of certificates issued in the Company's own name for account of third parties.

Issues (certificates) denominated in foreign currencies are presented under the asset item "receivables from the investment of issue proceeds" and under the liability item "liabilities under issued certificates" (EUR 760,737 thousand from USD and EUR 1,173,460 thousand from GBP, respectively) and under the asset item "trust assets – receivables" and under the liability item "trust liabilities – certificates" (EUR 405,780 thousand from USD, respectively). These amounts were translated to euros at the official mean rate of exchange at December 31, 2012.

Issues (warrants) denominated in foreign currencies are presented under the asset item "other assets" and under the liability item "other liabilities" (EUR 52,435 thousand from SEK, respectively). These amounts were translated at the official mean rate of exchange at December 31, 2012.

Maturity Structure of Receivables and Liabilities				
In euro thousands	Total Amount	Maturing in 1 year or less	Maturing in 1 to 5 years	Maturing in more than 5 years
Receivables				
- From the investment of issue proceeds	17,494,895	6,357,421	8,503,400	2,634,074
- Other receivables	1,378	1,378	0	0
- Trust receivables	5,773,414	676,689	4,057,882	1,038,843
Other assets	7,164,312	1,581,833	4,621,620	960,859
Liabilities				
- Under issued certificates	17,494,895	6,357,421	8,503,400	2,634,074
- Trade payables	58	58	0	0
- To affiliated companies	63	63	0	0
- Trust liabilities	5,773,414	676,689	4,057,882	1,038,843
Other liabilities	7,164,314	1,581,835	4,621,620	960,859

3. Notes to the income statement

The income statement was prepared using the cost summary method.

Other operating income relates mainly to costs assumed by the shareholder.

Other operating expenses comprise mainly issuing costs and legal and consulting expenses, as well as stock exchange costs.

Taxes on income relate to the result from ordinary activities.

4. Notes regarding the issue business

The issue volume in the 2012 fiscal year is presented below. All issues are completely hedged by entering into OTC options with identical terms and/or the investment of issue proceeds on the part of Société Générale S.A., Paris.

Total certificates and warrants:		32,400	3,876,951,406		22,970	5,803,064,280	

As a rule, the fair value of the financial derivatives and debt securities with embedded derivatives are calculated using market values; in the case of illiquid markets, they are measured based on internal models. These "in-house valuation models" are periodically tested by specialists from the risk department of Société Générale S.A., Paris. Derivative financial instruments similar in nature to options are measured by Société Générale S.A., Paris using generally accepted option price models.

If an active market exists, quoted prices from stock exchanges, brokers and price discovery agencies are used.

The type, scope, and fair values of the derivative hedging transactions as of the balance sheet date are as follows: The Company holds 7,060 OTC options with a market value of EUR 3,966 million to hedge equities and index warrants, 545 OTC options with a market value of EUR 437 million to hedge currency warrants and 3,790 OTC options with a market value of EUR 12,439 million to hedge warrants on commodities.

In addition, the Company holds 15,451 certificates with a market value of EUR 24,061 million, including trust transactions.

The carrying amount of the warrants presented herein for the period ended December 31, 2012, is EUR 7,164 million and is presented in the balance sheet under other liabilities. The carrying amount of the issued certificates for the period ended December 31, 2012, is EUR 23,268 million and is presented in the balance sheet under liabilities under issued certificates and under trust liabilities.

5. Disclosures regarding professional fees recognized as expenses in the fiscal year

The professional fee for the 2012 audit recognized as an expense in the 2012 fiscal year amounts to EUR 50 thousand.

6. Disclosures regarding board members and employees

The following individuals were appointed as managing directors in the 2012 fiscal year:

Mr. Jean-Louis Jégou, trained banker, Frankfurt am Main
Dr. Joachim Totzke, general counsel, Frankfurt am Main
Mr. Günter Happ, trained banker, Flieden (until November 27, 2012)

The managing directors are salaried employees of Société Générale S.A., Frankfurt am Main branch office. Expenses totaling EUR 12 thousand were charged to Société Générale Effekten GmbH in fiscal year 2012 as compensation for the managing directors.

The Company had an average of 1.5 employees during the fiscal year.

As a capital market-oriented company, an Audit Committee was set up in accordance with Section 264d HGB, comprising the following members:

Mr. Peter Boesenberg (Chairman) (from December 10, 2012)
Ms. Catherine Bittner
Mr. Achim Oswald
Mr. Francis Repka (until August 1, 2012)
Mr. Guido Zoeller (from August 1 to December 10, 2012)

7. Group affiliation

The parent company of Société Générale Effekten GmbH, which prepares consolidated financial statements, is Société Générale S.A., Paris. The publication of the consolidated financial statements of Société Générale S.A., Paris, is announced in France in the "Bulletin des Annonces Légales Obligatoires (B.A.L.O.) in the section entitled "Publications Périodiques" (R.C.S: 552 120 222).

The consolidated financial statements are available on the company's website at www.socgen.com.

Auditors' Report

We have audited the annual financial statements – comprising the balance sheet, the income statement, the cash flow statement, the statement of changes in equity, and the notes to the annual financial statements – together with the bookkeeping system and the management report of Société Générale Effekten GmbH, Frankfurt am Main, for the fiscal year from January 1 to December 31, 2012. The maintenance of the books and records and preparation of the annual financial statements and management report pursuant to German commercial law are the responsibility of the Company's Management. Our responsibility is to express an opinion on the annual financial statements, together with the bookkeeping system, and the management report based on our audit.

We conducted our audit of the annual financial statements in accordance with section 317 HGB ["Handelsgesetzbuch": "German Commercial Code"] and German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer (IDW). Those standards require that we plan and perform the audit such that misstatements materially affecting the presentation of the net assets, financial position and results of operations in the annual financial statements in accordance with [German] principles of proper accounting and in the management report are detected with reasonable assurance. Knowledge of the business activities and the economic and legal environment of the Company and evaluations of possible misstatements are taken into account in the determination of audit procedures. The effectiveness of the accounting-related internal control system and the evidence supporting the disclosures in the books and records, the annual financial statements and the management report are examined primarily on a test basis within the framework of the audit. The audit includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall presentation of the annual financial statements and management report. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion, based on the findings of our audit, the annual financial statements of Société Générale Effekten GmbH, Frankfurt am Main, correspond to the legal requirements and give a true and fair view of the net assets, financial position and results of operations of the Company in accordance with [German] principles of proper accounting. The management report is consistent with the annual financial statements and on the whole provides a suitable understanding of the Company's position and suitably presents the risks and opportunities of future development.

**Société Générale Effekten GmbH
Frankfurt am Main**

**Management Report
for Fiscal Year 2011**

Strategic orientation

Société Générale Effekten GmbH issues warrants and certificates that are each sold entirely to the parent company Société Générale S.A., Paris, to Société Générale Option Europe S.A., Paris, and to Inora LIFE Limited, Dublin – all wholly owned subsidiaries of the Société Générale parent company.

This activity has no influence on the issuer's economic situation, because some of the issues are placed with ultimate purchasers by Société Générale S.A., Paris.

Business development

The 2011 fiscal year was characterized by an increase in issue volume in the area of warrants compared to the prior year. On the other hand, the amount issued per product decreased significantly as a result of the introduction of the "up-to global note", which also led to a reduction in total assets. With this process, the amount of the issue depends on the expected demand and can be increased incrementally as necessary. This avoids non-placement of the issue volume.

In fiscal year 2011, warrants were issued over a total of 10,150 issues (previous year: 5,015). In addition to 2,860 issues on equities, 2,597 issues were floated on various indices, 308 on fixed income, 379 on currencies, 16 on two different underlying instruments, and 3,990 on commodities.

Furthermore, 12,820 classes of certificates were issued (previous year: 11,220) – mainly bonus and discount certificates.

Net assets, financial position and results of operations

Net assets

Total assets decreased year-on-year by EUR 26,602 million to EUR 43,159 million.

The Company's subscribed capital remains unchanged at EUR 26 thousand. In addition, the Company has retained profits brought forward in the amount of EUR 489 thousand at its disposal. The Company's equity increased by net income earned for the year in the amount of EUR 103 thousand (previous year: EUR 94 thousand) to EUR 617 thousand (previous year: EUR 514 thousand).

All receivables are owed by the sole shareholder. There was no risk of default outside the Société Générale Group.

Results of operations

The Company does not generate any profit from new issue activities, because the proceeds from the sale of issued warrants and certificates are always offset by the expenses for the acquisition of corresponding hedging transactions.

Personnel and other operating expenses are charged to Société Générale S.A., Paris, based on cost plus a surcharge. By design, the Company cannot suffer a net loss for the year independent of sales.

Financial position

The nature and execution of the Company's business activities are oriented on ensuring that its financial position is always balanced. Cash transactions arise only with respect to personnel and other operating expenses as well as their being charged to Société Générale, Paris.

Risk report

The Company's risk situation is largely determined by the simplicity of its business structure and by its close affiliation with the Société Générale Group.

Counterparty risk

The Company is not exposed to settlement risk, since payments from the sale of issued securities always offset payments for hedges and payments related to the exercise of warrants. Receivables are owed exclusively by the parent company Société Générale S.A., Paris. The creditworthiness of Société Générale S.A., Paris, and its subsidiaries is the determining factor for assessing the Company's risk.

Market risk

All market risk from issued warrants and certificates is fully hedged by means of hedging transactions entered into with Société Générale S.A., Paris. Therefore, there is no price risk or interest rate risk.

Liquidity risk

Due to the Company's affiliation with the Société Générale Group, there are no identifiable liquidity risks at the present time.

Operational risk

Société Générale S.A., Paris, has developed processes and systems to monitor and manage operational risks that are used by Société Générale Effekten GmbH. These include in particular "Permanent Supervision" as well as the Business Continuity Plan (BCP).

Internal control and risk management system with respect to the accounting process

With respect to the accounting process, the internal control system (ICS) and risk management system (RMS) include the basic principles, processes, and measures to ensure the effectiveness and efficiency of the accounting as well as to ensure compliance with the relevant legal provisions, and also the hedging of risks and the use of hedge accounting. It ensures that the assets and liabilities are recognized, presented, and measured appropriately in the financial statements.

Responsibilities in the accounting-related ICS and RMS

The responsibilities of management and the audit committee

Management manages the Company under its own responsibility and works together in trust with the Company's other executive bodies for the benefit of the Company. Its responsibilities include overall responsibility for the preparation of the annual financial statements.

Management assures according to the best of its knowledge that the annual financial statements represent a true and fair view of the Company's net assets, financial position and results of operations in accordance with the applicable accounting principles.

Management determines under its own responsibility the scope and orientation of the ICS and RMS, which are specifically designed for the Company, and undertakes measures to further develop the systems and to adjust them to changing conditions.

The value systems practiced for years in all the countries of Société Générale and therefore also by Société Générale Effekten, such as the "Code of Conduct" and the "Compliance Rules", etc., form the basis for responsible behavior also for the employees entrusted with carrying out the accounting process. Despite all risk-mitigating measures established within the scope of the ICS and RMS, established systems and processes that are also adequate and functional cannot guarantee with absolute certainty that risks will be identified and managed. The accounting department is responsible for the accounting process and in particular for the process of preparing the annual financial statements. The accounting department is supported by the back office departments of Société Générale Paris, in particular with respect to the measurement of financial instruments and receivables.

The data processing systems necessary for the accounting process are provided by the parent company.

In order to support management with respect to the accounting process, an Audit Committee was set up comprising three individuals (one salaried employee of Société Générale Effekten and two salaried employees of Société Générale at the Frankfurt branch office). The Audit Committee concentrates on the development of net assets, the financial position, and results of operations at least once every year – in particular for the annual financial statements. The shareholder is obligated to adopt the annual financial statements as part of the annual financial statement process. In order to fulfill these duties, the financial statement documents, including management's recommendation on the utilization of unappropriated net profits, are made available to the Audit Committee along with the auditors' preliminary report.

Organization and components of the accounting-related internal control and risk management system

Process and execution of the preparation of the financial statements of Société Générale Effekten.

The transactions to be processed on the part of Société Générale Effekten GmbH are recorded centrally by a back office of the parent company in Paris by entering the data in existing product-specific applications. The transactions entered into (contracts) are entered in the applications and approved after review by a second individual.

The Company outsourced accounts payable accounting for supplier invoices to Bangalore in May 2011.

The aforementioned accounting process is handled in Bangalore by Société Générale Global Solution Centre Private Limited (99% subsidiary of Société Générale S.A., Paris).

The services to be rendered are set forth for Société Générale Effekten in the service agreement between Société Générale S.A., branch office Frankfurt and Société Générale Global Solution Centre Private Limited, Bangalore.

The scanned records are recorded in Bangalore and allocated to an account; approval and release for payment are provided by employees of the Company.

The accounting of Société Générale Effekten is still maintained on the central server in Paris; all data relevant to the accounting of Société Générale Effekten is processed and stored on this server.

Employees of the Company in Frankfurt carry out the daily monitoring of current cash accounts, thereby ensuring the supervision of outsourced activities. The information recorded in the accounting for business operations in general and for facts and circumstances related to accounting in specific is accessed online over the intranet. Technical system maintenance with respect to the preparation of the financial statements is outsourced to the subsidiary responsible for IT in the SG Group.

The parent company is obligated to monitor this process. The technical consulting processes in the central advisory unit are regulated in the working instructions. The parent company is responsible for carrying out the security and filing of the application system databases. The statutory storage periods are adhered to. Contingency planning is updated and monitored by employees of the Company. The central data security systems for the mainframe computers as well as the storage networks for the Open Systems area form the primary basis for data security. The data is mirrored redundantly in Paris.

The necessary protection from unauthorized access and the maintenance of functional separation with respect to the use of the Company's application systems relevant to accounting are ensured in particular by the concept of workstation profiles as well as by processes to create the workstation profiles. The workstation profiles are issued to the individual back office departments in Paris as well as the employees of the service center in Bangalore and monitored by authorized individuals in the Company using a specially-developed system.

Documentation of the processes

As a subsidiary of Société Générale Paris, S.A., the documentation of the processes is specified. This is summarized in the "Accounting & Finance Manual". The main components of the documented processes are automatic controls which ensure the accuracy of data inputs.

Measures for continuous updating of the ICS and RMS

As part of the further development of the ICS and RMS, the Company intends to carry out additional projects and measures that contribute to strengthening the ICS and RMS. These include the review of processes related to the preparation of monthly results as well as recording them in a process cartography. Moreover, additional relevant processes are successively adopted and assessed and added to the standard process of the ICS and RMS based on the previously achieved process documentation basis.

Any changes in legal requirements and regulations with respect to the accounting are to be reviewed to determine whether and what consequences they have for the accounting process. The Company's local accounting department is responsible for handling such reviews. Changes or new regulations that have a significant effect on the accounting process are added to the existing or as-yet incomplete process cartography, whereby all measures such as adjustments to electronic data processing, work processes, and rules for posting bookkeeping entries, among other things, are analyzed and implemented accordingly in the back office departments in Paris as well as in the service department in Bangalore and monitored and supervised by employees in the Company in Frankfurt.

Supplementary report

There were no significant events that could have a potential effect on the net assets, financial position and results of operations after the reporting date.

Forecast report/Outlook

Issuing activities for the 2012 fiscal year depend on the current trend on the financial markets.

As in the previous years, the Company intends to offer a wide range of products in 2012.

The Company intends to continue the issuing activity begun in Austria in 2011.

Net income in fiscal years 2012 and 2013 will be positive, considering the strict risk hedging policy with respect to certificates and warrants.

**Société Générale Effekten GmbH
Frankfurt am Main**

**Notes to the Financial Statements
for Fiscal Year 2011**

Notes to the annual financial statements for the period ended December 31, 2011, and other disclosures

The annual financial statements of Société Générale Effekten GmbH for the period ended December 31, 2011, were prepared in accordance with the accounting regulations of the German Commercial Code (Handelsgesetzbuch, "HGB") and the supplementary provisions of the German Limited Liability Companies Act (Gesetz betreffend die Gesellschaften mit Beschränkter Haftung, "GmbHG") in compliance with German accepted accounting principles.

1. Accounting policies

Receivables are recognized at nominal value plus accrued interest. Liabilities not covered by hedging transactions are recognized at the settlement amount.

Deferred taxes are calculated based on temporary differences between the financial and tax accounts in accordance with section 274 HGB. They were presented as deferred tax assets in the amount of EUR 4,086.00 in the balance sheet based on pension provisions. The tax rate used to calculate deferred taxes was 31.93%.

Provisions for pensions were measured at the settlement amount necessary according to prudent business judgment (section 253 (1) sentence 2 HGB) based on actuarial principles taking into account the mortality tables 2005 G. They are discounted at an average market rate based on an estimated remaining term of 15 years (section 253 (2) sentence 2 HGB). The projected unit credit method is applied as the actuarial method of measurement. An actuarial interest rate of 5.13% (previous year: 5.15%), a benefits dynamic of 2.90% (previous year: 2.79%), and a pension dynamic of 1.90% (previous year: 1.79%) were used as parameters for the provisions for pension commitments.

Liabilities are recognized at their settlement amount (section 253 (1) sentence 1 HGB).

Option premiums are recorded as other assets or other liabilities until they are exercised or expire. When they are exercised or expire, they are transferred to profit or loss.

Issued certificates are presented as liabilities under issued certificates until they are payable. The issued certificates are offset by hedging transactions that are presented under receivables from affiliated companies.

Liabilities under issued certificates and warrants are recognized in the amount of the issuing proceeds. They are presented with the hedging transactions under receivables and other assets and summarized as hedges; they represent perfect micro-hedges. According to the net hedge presentation method (section 285 no. 19b and c HGB as well as section 285 no. 23 a and b HGB), the offsetting changes in value are not recognized. It was not necessary to recognize impairment allowances for receivables and other assets.

The warrants and certificates issued as of the balance sheet date were completely hedged against changes in market prices by means of hedging transactions with the shareholder.

In addition, the Company operates under a trust agreement with the sole shareholder, Société Générale Paris.

The certificates issued under trust transactions are covered by hedging transactions presented under trust assets. These transactions are recognized at cost.

2. Balance sheet disclosures

Other assets mainly include the OTC options acquired by the shareholder to hedge the issued warrants.

Receivables from affiliated companies amount to EUR 28,261,518 thousand (previous year: EUR 49,360,224 thousand) owed by the shareholder.

Trust receivables consist of funds passed on to the shareholder from several certificates issued on behalf of the shareholder.

Other provisions result mainly from provisions for issuing costs as well as auditing and consulting expenses.

Trust liabilities include the issue of certificates issued in the Company's own name on behalf of third parties.

Issues denominated in foreign currencies are presented under the asset item "receivables from the investment of issuing proceeds" and under the liability item "liabilities under issued certificates" (respectively EUR 1,025,049 thousand from USD and EUR 1,146,487 thousand from GBP). These amounts were translated to euros at the mean rate of exchange prevailing on December 30, 2011.

Maturities schedule of receivables and liabilities				
in € thousands	Total amount	Remaining term up to 1 year	Remaining term 1 to 5 years	Remaining term more than 5 years
Receivables				
- from the investment of issuing proceed	28,259,795	10,765,485	14,506,496	2,987,814

3. Income statement disclosures

The income statement was prepared using the total cost (nature of expense) method.

Other operating income relates mainly to costs assumed by the shareholder.

Other operating expenses comprise mainly issuing costs and legal and consulting expenses as well as costs associated with stock exchanges.

Taxes on income relate to the result from ordinary activities.

4. Disclosures regarding new issue activities

The issue volume in the 2011 fiscal year is presented below: all issues are completely hedged by entering into OTC options with identical terms and/or the investment of issuing proceeds on the part of Société Générale S.A., Paris.

As a rule, the fair value of the financial derivatives and debt securities with embedded derivatives are calculated using market values; in the case of illiquid markets, they are measured based on internal models. These "in-house valuation models" are periodically tested by specialists from the risk department of Société Générale S.A., Paris. Derivative financial instruments similar in nature to options are measured using generally accepted option price models by Société Générale S.A., Paris.

If an active market exists, quoted prices from stock exchanges, brokers and price finding agents are used.

The type, scope, and fair value of the derivative hedging transactions as of the balance sheet date is presented below: the Company holds 3,155 OTC options with a fair value of EUR 3,563 million to hedge equities and index warrants, 400 OTC options with a fair value of EUR 456 million to hedge currency warrants and 4.186 OTC options with a fair value of EUR 13,668 million to hedge warrants on commodities.

In addition, the Company holds 10,497 certificates with a fair value of EUR 31,716 million.

The carrying amount of the warrants listed here for the period ended December 31, 2011, is EUR 9,004 million and is included in the balance sheet under other liabilities. The carrying amount of the issued certificates for the period ended December 31, 2011, is EUR 28,260 million and is presented in the balance sheet under liabilities under issued certificates or under trust liabilities.

5. Disclosures regarding the fees recognized as expenses in the fiscal year

The fee recognized in the 2011 fiscal year as expense for the 2011 audit amounts to EUR 56 thousand.

6. Disclosures regarding board members and employees

Auditors' Report

We have audited the annual financial statements – comprising the balance sheet, the income statement, the cash flow statement, the statement of changes in equity, and the notes to the annual financial statements – together with the bookkeeping system and the management report of Société Générale Effekten GmbH, Frankfurt am Main, for the fiscal year from January 1 to December 31, 2011. The maintenance of the books and records and preparation of the annual financial statements and management report pursuant to German commercial law are the responsibility of the Company's Management. Our responsibility is to express an opinion on the annual financial statements, together with the bookkeeping system, and the management report based on our audit.

We conducted our audit of the annual financial statements in accordance with section 317 HGB ["Handelsgesetzbuch": "German Commercial Code"] and German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer (IDW). Those standards require that we plan and perform the audit such that misstatements materially affecting the presentation of the net assets, financial position and results of operations in the annual financial statements in accordance with [German] principles of proper accounting and in the management report are detected with reasonable assurance. Knowledge of the business activities and the economic and legal environment of the Company and evaluations of possible misstatements are taken into account in the determination of audit procedures. The effectiveness of the accounting-related internal control system and the evidence supporting the disclosures in the books and records, the annual financial statements and the management report are examined primarily on a test basis within the framework of the audit. The audit includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall presentation of the annual financial statements and management report. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion, based on the findings of our audit, the annual financial statements of Société Générale Effekten GmbH, Frankfurt am Main, correspond to the legal requirements and give a true and fair view of the net assets, financial position and results of operations of the Company in accordance with [German] principles of proper accounting. The management report is consistent with the annual financial statements and on the whole provides a suitable understanding of the Company's position and suitably presents the risks and opportunities of future development.
