**REPORT BY THE BOARD OF DIRECTORS IN ACCORDANCE WITH ARTICLES 114-BIS
AND 125-TER OF CONSOLIDATED FINANCIAL ACT LEGISLATIVE DECREE NO. 58 OF 24
FEBRUARY 1998, AS SUBSEQUENTLY AMENDED**

Dear Shareholders,

You have been called to the Shareholders' Meeting to resolve upon the following topic put on the agenda under **point 3)**:

“Proposal for approval of the 2024 incentive system and related payment modalities to Montepaschi Group's personnel based on “phantom shares”, pursuant to the combined provisions of articles 114-bis and 125-ter of the Consolidated Financial Act as well as art. 84-bis of the Regulation adopted with Consob resolution no. 11971 of 14 May 1999 (“Issuers’ Regulations”); related and consequent resolutions.”

Foreword¹

In line with applicable supervisory regulations and guidelines on the matter and in compliance with the specific supervisory provisions on remuneration and incentive policies and practices issued by the Bank of Italy² (hereinafter the "**Supervisory Provisions**"), the Group's Remuneration Policies (hereinafter the "**2024 Remuneration Policies**") - as set forth in the "Report on the remuneration policy and on compensation paid" pursuant to Article 123-ter of Italian Legislative Decree no. 58 of 24 February 1998, as amended (hereinafter the "**Consolidated Financial Act** or "**TUF**") - submitted for the necessary and prior approval of the Shareholders' Meeting of Banca Monte dei Paschi di Siena S.p.A. (hereinafter, the "**Bank**" or "**BMPS**"), provide that a portion of any variable remuneration to be paid to the "Identified Staff" (i.e. those persons whose activities have an impact on the risk profile of the Bank or the Banking Group, hereinafter also referred to as "**PPR**" ("**Personale Più Rilevante**" or "**Identified Staff**") be paid in financial instruments and - more specifically - shares or related instruments³.

The concept of variable remuneration, as defined by the Supervisory Provisions in force, includes:

- the amounts paid to the PPR as an incentive for the achievement of the Business Plan 2022-2026 objectives set out in the **2024 Incentive System**. The 2024 Incentive System is a variable system for the Identified Staff and additional key resources not belonging to the Identified Staff, related to the 2024 objectives. This system represents a strategic lever for:
 - enhancing the value of human capital;

- guaranteeing sustainable development in the ESG (Environment, Social and Governance) area through the adoption of incentive parameters related to the achievement of the Group's strategic guidelines on environmental, social and governance issues;
 - ensuring alignment between management and the interests of the Shareholder and investors;
 - facilitating the achievement of the challenging objectives defined for 2024 by creating value and the prerequisites for the full execution of the 2022-2026 Business Plan.
- any amounts paid to the Identified Staff as an incentive for early termination of employment or for early termination of office (so-called **Severance**)⁴.

2024 Incentive System

Given this requirement, it is necessary for the Bank to define the type of financial instruments and the relative amounts to be reserved for such possible future commitments through the drafting of a specific plan (hereinafter, the "**Plan**") to be submitted to the Shareholders' Meeting in accordance with the provisions of Article 114-*bis* of the Consolidated Law on Finance and Article 13 of BMPS' By-Laws.

The proposal for the Plan covered by this Report was approved by the Bank's Board of Directors on 29 February 2024, with the favourable opinion of the Remuneration Committee and the Board of Statutory Auditors (the latter pursuant to Article 2389 of the Italian Civil Code).

The Remuneration Policies of the Montepaschi Group outlined in the Remuneration Report (both as defined below) for the year 2024 and submitted for the necessary prior approval of BMPS' Shareholders' Meeting, in application of the provisions of the applicable remuneration legislation (see below) - require for the "Identified Staff" of Montepaschi Group (hereinafter also the "**Group**"), *i.e.* those persons whose activities have a significant impact on the Group's risk profile, the activation of the 2024 Incentive System (*i.e.* the "**2024 Incentive System**", as defined below).

It should be noted that the proposed Plan is based on the awarding of financial instruments in synthetic form (hereinafter "**Phantom Shares**"), which will be converted into cash depending on the market value of the Bank's ordinary shares, in accordance with the deadlines set out in the specific agreements for the payment to the PPR of the percentage in financial instruments according to the 2024 Incentive System and any Severance, and does not provide for the use of the treasury shares. Furthermore, the afore-mentioned synthetic instruments are deemed appropriate to achieve the same objectives and comply with the principles laid down in the relevant regulations, including that of providing for the payment of variable remuneration aligned with the results and risks of the Bank and the Group to

⁴ "Severance" shall mean the amount recognised in the context of agreements for early termination of employment (for the amount exceeding the cost of notice and excluding what is required by law) or early termination of the office and to be paid in part in the form of financial instruments pursuant to the Supervisory Provisions and the Remuneration Policies (including the consideration for any non-compete covenants, for the amount exceeding one year of fixed remuneration of the Beneficiary).

which it belongs, using instruments (as an alternative to treasury shares) having the same effect - in terms of loss absorption - as equivalent shares or investments in the share capital, also taking into account the cost and level of capital and liquidity required to carry out the activities undertaken, and being structured in such a way as to avoid the creation of incentives that conflict with the company's long-term interests.

The characteristics of the Plan are in line with the provisions of the applicable remuneration laws, more specifically the Supervisory Provisions, as better described below and which will be described in further detail in the disclosure that will be made available to the public, in accordance with article 84-*bis* of the Consob regulation adopted with resolution no. 11971 of 14 May 1999, as subsequently amended (hereinafter the “**Issuers’ Regulations**”), along with this Explanatory report.

1. Beneficiaries of the Plan

The potential beneficiaries of the Plan for the awarding of the 2024 Incentive System and for the payment of any Severance are the Executive Directors and personnel included in the scope of the Group’s PPR (identified annually by the relevant bodies on the basis of the criteria established by the regulations *pro tempore* in force).

To date (and subject to changes in the period of validity thereof), the afore-mentioned potential beneficiaries include, among others, the Chief Executive Officer and General Manager of the Bank, and the "Key Managers" of the Group identified, pursuant to the regulations in force⁵, in the Bank's Departments Managers and the other Managers of structures reporting directly to the Chief Executive Officer and the Board of Directors.

2 Reasons behind adoption of the Plan

The Plan aims to enable the Bank and its subsidiaries to comply with the provisions of the Supervisory Provisions where they require that the awarding of a 2024 Incentive System and any Severance payments take place, in part⁶, by means of financial instruments (in this case Phantom Shares), to be converted at agreed maturities into a monetary amount correlated to the performance of the Bank's shares.

Therefore, the Plan specifically permits alignment with the provisions of the regulations on the awarding of a 2024 Incentive System and on the payment of any amounts determined upon mutual agreement for early termination of the employment relationship or early termination of office.

⁵ These are individuals who perform management functions, have regular access to inside information and can make management decisions that can affect the Bank's development and prospects.

⁶ See previous notes 2 and 3.

At the same time, it aligns the interests of management with the interests of the Shareholders to create medium-term value.

3. Governance of the Plan

Under the Plan, the Board of Directors is granted all the powers necessary to implement it, including, purely by way of an example, that of approving, as part of the 2024 Remuneration Policies endorsed by the Shareholders' Meeting, the proposals with regard to:

- the Plan Regulations and any updates;
- awarding of Phantom Shares to the beneficiaries of the Plan.

To the extent permitted by the regulations, in force at the time, the Board of Directors may delegate its powers to the Chief Executive officer or other Director(s), with the support of the Chief Human Capital Officer Department, and/or confer specific powers to perform any activity related to the management of the Plan.

4. Methods for awarding Phantom Shares for the 2024 Incentive System

The Plan entails, depending on the level of achievement of the objectives defined both at Bank and individual level and once the activation conditions are exceeded, the awarding of a *bonus* partly in the form of cash and partly in Phantom Shares, convertible into a cash equivalent correlated to the trend in the market value of the Bank's shares, to be paid to the beneficiary, according to the timing and procedures defined in the 2024 Remuneration Policies endorsed by the Shareholders' Meeting. In particular, any *bonus* accrued within the defined terms is attributed for at least 50% in Phantom Shares and, for a component between 50% and 70%, deferred for 4 or 5 years.

With reference to the criteria and conditions for the awarding of Phantom Shares, reference is made to the objectives and conditions described in the information document drawn up pursuant to art. 114-*bis* of the Consolidated Law on Finance and art. 84-*bis* of the Issuers' Regulations and the 2024 Remuneration Policies described in the 2024 Report on the remuneration policy and on compensation paid pursuant to art. 123-*ter* of the Consolidated Financial Act.

In consideration of the overall framework of provisions applicable to the Bank, it should be noted that the total remuneration paid to the Bank's staff in each year of permanence in the "State aid" regime, including the fixed component and any variable remuneration percentages that may be paid, may not exceed 10 times the average (monetary) remuneration of the Bank's employees in 2022.

With reference to the Senior Managers and Key Functions holders⁷, the variable remuneration percentage accrued (insofar as all the performance conditions have been met), but exceeding - also calculating the fixed component - the aforementioned limit, may be paid subject to the disposal of the equity investment of the Government in the Bank, without prejudice to further deferrals and/or retention periods envisaged on the basis of the scheme governed by the 2024 Remuneration Policies.

As set forth in the Supervisory Provisions and in the 2024 Remuneration Policies, the Bank and its subsidiaries activate *malus* and/or clawback mechanisms in the cases envisaged by the 2024 Remuneration Policies of *ex-post* correction suitable, among other things, to reflect corporate performance levels once the risks actually taken have been accounted for, and to take into consideration individual behaviours, as well as the Bank's equity and liquidity levels.

The Phantom Shares may also be used for the payment of any Severance.

5. Characteristics of the instruments provided

The Plan, as mentioned, provides only for the awarding of Phantom Shares convertible into a cash equivalent related to the market value of the Bank's shares paid to the beneficiary. No credit instruments will therefore be given.

In the 2024 Incentive System, the reference date for calculating the number of Phantom Shares to be paid to the individual beneficiary - determined on the basis of the arithmetic average of the prices of the MPS share (ISIN: IT0005508921) recorded in the 30 days prior to the same date - will be that of the actual awarding of the *bonus*, *i.e.* the date of approval of the 2024 Financial Statements by the Board of Directors, as specified in the relevant individual communications. The benchmark price for the conversion into cash downstream of the *holding period*⁸ is defined on the basis of the arithmetic average of the prices of the MPS share (ISIN: IT0005508921) recorded in the last 30 days of the *holding period*.

6. Funding

It is not possible to indicate the exact amount of the expected cost of the 2024 Incentive System, as it will depend, *inter alia*, on the overall results achieved by the Group and the individual results achieved by the beneficiaries included in the Identified Staff, to date no. 124. The actual amount will be disclosed in the section on remuneration paid in the Report on the remuneration policy and on compensation paid pursuant to art. 123-*ter* of the Consolidated Financial Act - TUF), which will be submitted to the Shareholders' Meeting called to approve the Financial Statements as of December 31, 2024.

⁷ Persons who have a significant influence on the management of the institution, but who are not members of the management body and do not hold the position of managing director (see Guidelines on the assessment of the suitability of members of the management body and key personnel of 2/7/2021).

⁸ Mandatory Holding Period of Financial Instruments.

7. Revision and amendments to the 2024 Incentive System

There are no specific procedures in place for the possible revision of the 2024 Incentive System other than those related to the functions performed by the corporate bodies.

In the case of extraordinary events (such as extraordinary transactions on the Bank's capital, legislative or regulatory amendments, guidelines by the regulatory entities and/or supervisory authorities or other events that may affect the shares or the 2024 Incentive System), the Board of Directors shall make adjustments to the 2024 Incentive System, the Board of Directors shall make, independently and without further approval by BMPS' Shareholders' Meeting, any amendments and additions deemed necessary or appropriate to maintain the substantive and economic contents of the 2024 Incentive System unchanged to the extent permitted by the legislation and measures applicable from time to time.

8. Accounting and tax aspects

The accounting standards provide that the awarding of Phantom Shares related to the variable remuneration of the personnel will be accounted for on the income statement as follows:

- for the 2024 Incentive System as a cost depending on the services provided in the reference period (so-called *service condition*)
- for any Severance as a cost at the time of early termination of the employment relationship or termination of office.

The cost is equal to the value of the payment at the time of the awarding, adjusted for the probabilistic elements related to the 2024 Incentive System (actuarial parameters, etc.). The cost of the variable remuneration in Phantom Shares must be spread over the entire vesting⁹ period (it being understood that the payment of the deferred amounts remains in any case subject to the conditions set out, *inter alia*, in paragraph 4 above). The Phantom Shares will be subject to taxation and social security contributions in accordance with prevailing law in the Country of tax residence of each Beneficiary.

9. Other information

The Plan does not receive any support from the Special Fund for the promotion of employees' profit sharing, referred to in article 4, paragraph 112 of Italian Law no. 350 of 24 December 2003.

⁹ Vesting period or the period within which all vesting conditions (service conditions or performance achievement conditions) specified in the relevant Phantom Share-based payment agreement must be fulfilled.
